**County of Los Angeles—Department of Mental Health  
Program Support Bureau**

**State  
Performance  
Outcomes &  
County  
Performance  
Outcomes  
Report  
CY 2008**

**Executive  
Summary**

**Marvin J. Southard, D.S.W**  
**Director of Mental Health**

The County of Los Angeles, Department of Mental Health (LAC-DMH) Annual Performance Outcomes Summary Report for the eight (8) geographic Service Areas and Countywide for Calendar Year (CY) 2008 contains: the State Performance Outcomes for November 2008 in accordance with the State Performance Outcomes survey requirements; the County Performance Outcomes for May 2008 and November 2008 in accordance with the County of Los Angeles, Board of Supervisors Performance Outcomes survey requirements; and, the Performance Outcome for timely access to mental health services for persons discharged from psychiatric inpatient hospitals.

In CY 2008, there were 51,538 "Surveys Received" from Clinic Outpatient, Day Treatment, School and Field-Based Programs from four (4) Age Groups: 1. Youth Services Survey – Family (YSS-F for family members of consumers 0-17 years), 2. Youth Services Survey (YSS for 13-17 years), 3. Mental Health Statistics Program Survey – Adult (MHSIP for 18-59 years), and MHSIP Older Adult (for 60+ years). The 51,538 Total Surveys Received includes 39,967 or 77.5% from Clinic Outpatient and Day Treatment Programs and 11,571 or 22.5% from School and Field-Based Programs.

All Surveys Received are subject to an algorithm that excludes incomplete surveys prior to computing Survey Completion Rates. The remaining surveys that meet the criteria for data analyses are the "Surveys Completed". There were 42,659 "Surveys Completed" from Clinic Outpatient, Day Treatment, School and Field-Based Programs. The 42,659 Surveys Completed include 32,952 or 77.2% from Clinic Outpatient and Day Treatment Programs and 9,482 or 22.2% from School and Field-Based Programs. Reliability and Significance Testing were completed for Service Areas, Demographics, and Indicators.

**COUNTYWIDE RESPONSE RATES, CY 2008**

- The County Performance Outcomes Response Rate from Clinic Outpatient, Day Treatment, School and Field Based Programs was 43.3% for Surveys Received and 35.8% for Surveys Completed.
- The State Performance Outcomes Response Rate from Clinic Outpatient and Day Treatment Programs was 33.6% for Surveys Received and 27.7% for Surveys Completed.

**STATE PERFORMANCE OUTCOMES, NOVEMBER SURVEY PERIOD**

- Service Area (SA) 2 had the highest number of Surveys Received and Surveys Completed for all Age-Groups, followed by SA 8 and SA 6.
- There were 2,765 or 14.1% Surveys Received from Clinic Outpatient and Day Treatment Programs with a Reason Code for not completing the surveys. There are four (4) possible Reason Codes and the highest percent for all Age-Groups was "Refused" at 52.6%. Older Adults at 22% had the highest percent Reason Code for "Language" for not completing the surveys.
- Surveys Received for all Age-Groups at 95% agreed with: "Was Written Information Available to You in the Language You Prefer"? SA 5 had the highest percent agreement at 96% and SA 4 had the lowest percent agreement at 92%.

## **OVERALL SATISFACTION MEAN SCORES & SUBSCALE MEAN SCORES**

The maximum range for Overall Satisfaction Mean Scores for the YSS-F and the YSS is 29 to 145. The maximum range for the Adult and Older Adult is 37 to 185.

- Surveys Completed for all Age-Groups had **Overall Satisfaction** Mean Scores of: YSS-F at 121.8, as compared with the YSS at 116.3 and the highest for Older Adults at 161.1, as compared with Adults at 153.7. The highest Overall Satisfaction Mean Scores by Service Area were: SA 6 for the YSS at 118.7 and Older Adults at 173.9; SA 4 for the YSS-F at 125.0 and Adults at 155.6. The lowest Overall Satisfaction Mean Scores by Service Area were: SA 1 for the YSS-F at 119.3, Older Adults at 143.0 and Adults at 150.0; and, SA 2 for the YSS at 114.0.
- Surveys Completed for all Age-Groups had **General Satisfaction Subscale** Mean Scores of: YSS-F at 21.8, as compared with the YSS at 20.2 and for Older Adults at 13.8, as compared with Adults at 13.3. The highest General Satisfaction Subscale Mean Scores by Service Area were: SA 4 for the YSS-F at 22.1; SA 6 for the YSS at 20.8 and SA 1, SA 2 and SA 7 for Adults at 13.4. The Mean Score for this subscale was not significantly different by Service Area for Older Adults.
- Surveys Completed for all Age-Groups had **Perception of Access Subscale** Mean Scores of: YSS-F at 8.7, as compared with the YSS at 7.9 and for Older Adults at 26.6, as compared with Adults at 25.6. The highest Perception of Access Subscale Mean Scores by Service Area were: SA 6, SA 7 and SA 8 for the YSS at 8.1; and, SA 2 for Adults at 25.9. The Mean Score for this subscale was not significantly different by Service Area for the YSS-F and Older Adults.
- Surveys Completed for all Age-Groups had **Perception of Quality and Appropriateness (Cultural Sensitivity) Subscale** Mean Scores of: YSS-F at 18.1, as compared with the YSS at 16.8 and for Older Adults at 40.0, as compared with Adults at 38.7. The highest Perception of Quality and Appropriateness (Cultural Sensitivity) Subscale Mean Scores by Service Area were: SA 5 for the YSS-F at 18.5; SA 7 for the YSS at 17.4 and SA 6 for Adults at 39.2 and Older Adults at 42.2.
- Surveys Completed for all Age-Groups had **Perception of Participation in Treatment Planning Subscale** Mean Scores of: YSS-F at 12.9, as compared with the YSS at 11.5 and for Older Adults at 8.8, as compared with Adults at 8.7. The highest Perception of Participation in Treatment Planning Subscale Mean Scores by Service Area were: SA 3 and SA 5 for Adults at 8.3. The Mean Score for this subscale was not significantly different by Service Area for the YSS-F, the YSS and Older Adults.
- Surveys Completed for all Age-Groups had **Perception of Outcomes Subscale** Mean Scores of: YSS-F and YSS at 23.3, and for Older Adults at 33.2, as compared with Adults at 31.5. The highest Perception of Outcomes Subscale Mean Scores by Service Area were: SA 4 for the YSS-F at 24.5 and Adults at 32.2. The Mean Score for this subscale was not significantly different by Service Area for the YSS, and Older Adults.
- Surveys Completed for all Age-Groups had **Perception of Functioning Subscale** Mean Scores of: YSS-F at 19.4, as compared with the YSS at 19.5 and for Older Adults at 20.4, as compared with Adults at 19.3. The highest Perception of Functioning Subscale Mean Scores by Service Area were: SA 4 for the YSS-F at 20.5; SA 6 for Adults at 19.7 and Older Adults at 21.7. The Mean Score for this subscale was not significantly different by Service Area for the YSS.

- Surveys Completed for all Age-Groups had **Perception of Social Connectedness Subscale** Mean Scores of: YSS-F at 17.0, as compared with the YSS at 16.4 and for Older Adults at 16.1, as compared with Adults at 15.6. The highest Perception of Social Connectedness Subscale Mean Scores by Service Area were: SA 4 for the YSS-F at 17.2; SA 2 and SA 7 for Adults at 15.8; and, SA 6 for Older Adults at 16.9. The Mean Score for this subscale was not significantly different by Service Area for the YSS.
- A total of 74.4% of the YSS-F reported that their child had Medi-Cal (Medicaid) insurance as compared with 7.9% that did not. In SA 1 the YSS-F had the highest percent of Medi-Cal (Medicaid) insured children at 83.4% as compared with the lowest percent in SA 5 at 64.6%. A total of 70.2% of the YSS reported that they had Medi-Cal (Medicaid) insurance as compared with 9.3% that did not. In SA 3 the YSS had the highest percent of Medi-Cal (Medicaid) at 78.1% as compared with the lowest percent in SA 2 at 58.4%.

See Technical Appendix Part I for March 2008 State Outcomes results.

### **COUNTY PERFORMANCE OUTCOMES, CY 2008**

- The highest to lowest average percents for the four (4) Outcome Measures that were asked of all the Age-Groups were: “Services were available at times that were convenient” and, “Staff were sensitive to my cultural ethnic background” both at 88.4%, “Location of services was convenient” at 85.8%; and “Doing better in school and/or work” at 69.5%.
- The highest to lowest average percents for the three (3) Outcome Measures from the YSS-F and the YSS were: “I felt my child/I had someone to talk to when he/she was troubled” at 86.1%, “In a crisis, I would have the support I need from family and friends” at 83.7%, and “My child/I get along better with family members” at 72.2%.
- The highest to lowest average percent for the three (3) Outcome Measures from Adults and Older Adults were: “Staff were willing to see me as often as I felt necessary” at 88.7%, “I deal more effectively with daily problems” at 80.6%, and “Symptoms are not bothering me as much” at 69.1%.

One of the ten (10) Outcome measures showed significant differences for all Age-Groups by SA in May and November. The highest average agreement for “Location of services was convenient” was in SA 7, YSS-F (May & Nov.) in SA 5, SA 7, YSS (May & Nov.); and in SA 6 Adults (May & Nov.) and SA 4 SA 5 Older Adults (May & Nov.). The lowest average agreement was in SA 5 YSS-F (May & Nov.), in SA 4 YSS (May) and SA 1 YSS (Nov.); and in SA 8 (May & Nov.) for Adults and Older Adults.

A second Outcome Measure that showed significant differences in May and November was “My child/I get along better with family members”. This Outcome Measure is only in the YSS-F and the YSS. The highest average agreement for “My child/I get along better with family members” was in SA 4 and SA 7 and the lowest average agreement was in SA 1 and SA 8.

A third Outcome Measure that showed significant differences in May and November for Adults and Older Adults was “Doing better in school and/ or work.” The highest average agreement was in SA 4 for both Adults and Older Adults and the lowest average agreement was in SA 1.

See Table 2.7 for Baseline County Performance Outcomes and Tables 2.8 - 2.28 for distribution of the County Performance Outcomes by Service Area and Age Group. This Report is also available online at: <http://psbqi.dmh.lacounty.gov/qi.htm>

#### **ANNUAL PERFORMANCE OUTCOMES SUMMARY REPORT FOR CY 2008**

##### **FOR THE SURVEY PERIODS OF**

**May 12, 2008 - May 23, 2008**

**And**

**November 3, 2008 - November 17, 2008**

### **INTRODUCTION**

This is the LAC-DMH Annual Performance Outcomes Summary Report by Service Area and Countywide for Calendar Year (CY) 2008. This Report is divided into three parts: Part I summarizes the November 2008 State Performance Outcomes, consistent with the State Performance Outcomes System. Part II summarizes the May 2008 and November 2008 County Performance Outcomes, consistent with the County of Los Angeles Board of Supervisors requirements for Performance Outcomes. Part II is an aggregate of both the May 2008 and November 2008 survey data and constitutes the Annual County Performance Outcomes Baseline data for CY 2008. Part II aggregates data for May and November after rigorous testing showed no significant differences between the two survey periods. Part I and Part II also contain significance testing for Service Area and Demographic differences. Part III captures timely access to post-discharge services for persons discharged from psychiatric inpatient facilities and residential treatment programs/institutional care. The Report has two Technical Appendices. Technical Appendix Part I lists corresponding Tables for the May 2008 Survey Period for data reported in Part I of the report. Technical Appendix Part II lists corresponding Tables for the May 2008 Survey Period for data reported in Part II of the report.

### **HISTORICAL BACKGROUND**

The State Performance Outcomes System and the Federal Block Grant requirements mandate that all states and counties conduct consumer/family perception of satisfaction surveys for persons receiving mental health services in Clinic Outpatient and Day Treatment Programs. The Los Angeles County Department of Mental Health (LAC-DMH) administers the surveys in Clinic Outpatient and Day Treatment Programs that receive mental health funding from the LAC-DMH. The surveys are administered biannually during a two week period in May and in November of each year in all of the eight (8) Service Areas of the LAC-DMH. Summary Reports are prepared upon completion of the survey process which includes data sharing and collaboration with the California Performance Outcomes System and the Performance Outcomes & Quality Improvement (POQI) Unit of the California Department of Mental Health (CDMH). The existing partnership that is between the Counties and

the CDMH POQI is critical to the successful application of this web-based statewide reporting system that is also linked to national database networks for mental health care service delivery performance measures and outcomes.

In 2006, the County of Los Angeles Board of Supervisors (Board) approved the County's Strategic Plan Guiding Coalition's recommendation to improve the effectiveness of services delivered by social service contractors. In order to accomplish this goal, the Board instructed County social service departments to convert to contracted performance outcomes by December 31, 2007. As a result, the LAC-DMH converted to Performance Based Contracting (PBC) and performance outcomes, commencing on January 1, 2008.

The LAC-DMH Performance Outcomes were selected consistent with the State Performance Outcomes System by an interdisciplinary team of stakeholders including representatives from directly operated and contracted providers, the Office of the Auditor-Controller, and other involved stakeholders. The team was developed in 2007 and subsequently selected these measures to: support existing consumer/family initiatives and performance outcome measures; foster cost neutrality; reduce duplicative efforts; and, create opportunities for partnering with providers for Quality Improvement purposes. Additionally, a brief survey was developed for field and school based mental health care service settings, hereafter referred to as "Field Based". The team also recommended the inclusion of performance measures for timely access to services for persons discharged from psychiatric inpatient hospitals and residential treatment facilities/institutional settings. Lastly, the team recommended that CY 2008 be solely dedicated to establishing baseline data for the selected measures and that quality improvement initiatives be directed at improving mental health care service performance measures and outcomes.

## **OVERVIEW OF THE STATE AND COUNTY PERFORMANCE INSTRUMENTS**

In compliance with the mandated State Performance Outcomes System, the following satisfaction survey instruments are utilized in mental health care clinics and are included in Part I of this report:

1. Mental Health Statistics Improvement Program (MHSIP) Survey – Adults (Ages 18-59)
2. MHSIP – Older Adults (Ages 60+)
3. Youth Services Survey (YSS) (Ages 13-17) and,
4. Youth Services Survey – Family (YSS-F) (Family Members of Consumers Ages 0-17)

In compliance with the County Performance Outcome requirements, seven (7) items were selected from the State Performance Outcomes survey instruments. These seven (7) items were extrapolated from the Clinic Outpatient and Day Treatment surveys and were combined with the corresponding questions and data from the Field Based surveys. This combined baseline data is included in Part II reporting for the May 2008 and November 2008 survey periods.

In Part III, the County Performance Outcomes utilize the Information System (IS) Claims Data to capture timely access to services for persons discharged from psychiatric inpatient facilities and residential treatment programs/institutional post discharge care.

## **METHODOLOGY**

The purpose of administering the consumer and family perception of satisfaction surveys is to obtain consumer/family input; improve accountability; and comply with State and Federal funding requirements. The survey data collection methodology includes conducting surveys, twice each year, for a two week period, in May and November. The surveys are administered to the target population of consumers/families who have received face-to-face mental health care services during the survey periods. The dates for the two week survey periods are selected by the CDMH and exclude surveying persons receiving the following mental health care services: Hospital, Jail, Crisis, and Long-Term Residential.

Prior to each survey period, CDMH POQI provides an updated Training Manual, available online at the POQI documents page [poqi.support@dmh.ca.gov](mailto:poqi.support@dmh.ca.gov) for downloading and a survey training that highlights changes to the process, methodology, and forms. Additionally, prior to each survey period, the LAC-DMH conducts training in each of the eight (8) Service Areas. Both trainings are available in order to ensure that responsible Service Area designated staff are knowledgeable in: preparing the forms, collecting the data, using the right forms for the right ages in the right languages, reviewing the submitted forms, and accessing and using the Training Manual from the CDMH POQI website. The survey process and trainings within LAC-DMH are coordinated by the Program Support Bureau, Quality Improvement Division, in collaboration with designated Service Area Liaisons. The LAC-DMH training also includes instructions for conducting Field-Based surveys. Survey forms are pre-printed with identifying Service Area information for the location and are distributed by the LAC-DMH at the time of the training.

Consumers/Families voluntarily participate in the survey process during the specified two week survey period. Survey Completion Rates are computed based on the Federal Block Grant formula for surveys submitted which include Reason Codes for not completing the surveys. Domains (including subscales) with insufficient data or less than two-thirds of the items completed are not used in analysis calculations. Other exclusion reasons include unrecognizable entries and insufficient Service Area identification. Service Areas are highly encouraged to use the “Comments” section of the surveys because this feedback is generally highly specific to each Service Area and cumulative data collection for the Comments section does not occur at the County, State, or Federal level. Survey data is scanned and submitted to CDMH POQI, for the survey period, in accordance with the due date provided by CDMH POQI. County data is processed by CDMH POQI for statewide data collection reporting and returned to the County. Hard copies of the surveys may then be shredded or disposed of in an otherwise confidential manner. The final report is prepared using only aggregate data by Service Area and no PHI information is included.

In summary, this is the first integrated report for State Performance Outcomes and

County Performance Outcomes, consistent with the mandated State Performance Outcomes System, the mandated Federal Block Grant requirements and the Board of Supervisors instructions for all Departments to convert to performance outcomes to improve the quality and effectiveness of mental health services. The LAC-DMH data collection, data analysis and reporting for CY 2008 is dedicated specifically to baseline data collection and data analysis including the application of reliability and significance testing.

## **ELECTRONIC AVAILABILITY OF DATA**

Data for Legal Entity Provider Numbers is available in the EFT (previously known as SIFT) folder. This is informational for reviewing response rates and individual provider data review. This Report is also available online at: <http://psbqi.dmh.lacounty.gov/qi.htm>

## **LIMITATIONS**

- A significant limitation of the data collection and data analysis processes is that surveys are conducted on volunteer participants in the identified settings without the application of random sampling techniques. Therefore, the findings may not be representative of all consumers served by the LAC-DMH system of care as rendered by County operated and contracted providers.
- Another significant limitation of the data collection and data analysis processes is that the surveys are available in the six (6) language translations provided by the CDMH for: Spanish, Chinese, Hmong, Russian, Tagalog, and Vietnamese. In addition to English, the LAC-DMH has twelve (12) State designated Threshold Languages including languages for which the CDMH has not provided language translations: Arabic, Armenian, Cantonese, Cambodian, Farsi, Korean, and Mandarin. The unavailability of survey translations in all of the CDMH designated Threshold Languages adversely effects response rates and leaves large populations of monolingual, non-English speaking consumers/families without the opportunity to anonymously express their perceptions concerning mental health services received and provided.
- Another limitation is the data collection and data analysis for ethnicity in which there is a high frequency of participants reporting identification with multiple ethnic categories or with the "Other" ethnic category. The lack of distinct categories impacts the accuracy of response rate calculations.
- Finally, there is an apparent self-selection process introduced through volunteer participation in the surveys. Ideally, this may be offset by overall higher response rates.

**PART I**  
**STATE PERFORMANCE OUTCOMES – SUMMARY REPORT**  
**CLINIC SURVEYS**  
**NOVEMBER 2008**

**BACKGROUND**

In compliance with the mandated State Performance Outcomes System, Part I summarizes the results of the four consumer/family satisfaction surveys administered in Clinic Outpatient and Day Treatment Programs in the eight Service Areas of the LAC-DMH from November 3, 2008 to November 17, 2008. A prior report was issued earlier in November 2008 for the results of the May 12, 2008 to May 23, 2008 Survey Period. (See Technical Appendix for survey results for May 2008). The surveys were administered to consumers/families who received face-to-face mental health care services in Clinic Outpatient and Day Treatment Programs during the survey period. The four surveys are:

1. Mental Health Statistics Improvement Program (MHSIP) Survey – Adult (Ages 18 – 59 Years)
2. MHSIP Older Adult (Ages 60 +)
3. Youth Services Survey (YSS) (Ages 13 – 17) and
4. Youth Services Survey – Family (YSS-F) (Family Members of Consumers Ages 0 - 17)

Part I summarizes the results for each of the four surveys by Overall Satisfaction mean and subscale mean for each Service Area. A higher mean score indicates a better consumer perception of care for that subscale domain. Additionally, significance testing for Service Area and demographic differences was instituted and is reported below.

**DESCRIPTION OF THE STATE PERFORMANCE OUTCOME INSTRUMENTS**

The MHSIP Surveys used in the State of California are public domain instruments developed by a Task Force of the MHSIP Advisory Committee of the Federal Substance Abuse & Mental Health Services Administration (SAMHSA) and the Center for Mental Health Services (CMHS). The Task Force included mental health consumers, family members, researchers, providers, and representatives of Federal, State, and local mental health agencies. The MHSIP survey is designed to measure Overall Satisfaction and has five (5) Subscales: Perception of General Satisfaction, Perception of Access, Perception of Quality and Appropriateness, Perception of Outcomes, and Perception of Participation in Treatment Planning. The YSS and YSS-F are designed to measure Overall Satisfaction and have five (5) Subscales: Perception of Satisfaction with Services, Perception of Access, Perception of Cultural Sensitivity, Perception of Outcomes, and Perception of Participation in Treatment Planning. Additionally, on February 9, 2007, the CDMH issued changes to the surveys as released by SAMHSA for incorporation into the instruments (MHSIP, YSS, and YSS-F) with a new Functioning Subscale and a new Social Connectedness Subscale.

1. The MHSIP survey is used for adults 18 to 59 years and older adults 60 years and above;
2. The Child/Youth version (YSS) and the MHSIP survey is used for children ages 13 to 17 years;
3. The Child/Family (YSS-F) is used by family of children who are 0-17 years.

## SURVEYS RECEIVED

**TABLE 1.1: SURVEYS RECEIVED BY AGE GROUP**

Age Group	Surveys Received	Percent
<b>YSS-F (0-17)</b>	6,805	34.8%
<b>YSS (13-17)</b>	4,105	21.0%
<b>Adult (18-59)</b>	8,027	41.0%
<b>Older Adult (60+)</b>	625	3.2%
<b>Total</b>	<b>19,562</b>	<b>100.0%</b>

Table 1.1 shows that a total of 19,562 surveys were received for all age groups that received face-to-face mental health services in LAC-DMH funded Clinics Outpatient and Day Treatment Programs during the survey period of November 3, 2008 to November 17, 2008. The highest percent of surveys was 41.0% from Adults or a total of 8,027 surveys. The lowest percent of surveys was approximately 3.2% from Older Adults or a total of 625 surveys. Nearly 35.0% of the surveys or 6,805 were from YSS-F between the ages 0 to 17. Another 21.0% of the surveys or 4,105 were from Youth (YSS) between the ages of 13 to 17.

**FIGURE 1.1: RESPONSE RATE FOR SURVEYS RECEIVED BY AGE GROUP**

The Response Rate for Surveys Received by Age Group in Figure 1.1 were calculated by dividing the number of surveys received by the number of consumers that received face-to-face services in LAC-DMH funded Clinics Outpatient and Day Treatment Programs during the survey period. The Response Rates represent the percent of surveys received by Age Group from a possible Total Response Rate of 100%. The Total Response Rate for Surveys Received for all age groups was 32.3%. Adults had the highest Response Rate of 30.5%. The YSS-F and Older Adults had the lowest rates of 21.7%. The YSS Response Rate was lower than Adults and higher than the YSS-F and Older Adults at 26.8%. (See Technical Appendix, Part I for Response Rate for Surveys Received by Age-Group for May and November).

**FIGURE 1.2: SURVEYS RECEIVED BY SERVICE AREA AND AGE GROUP**

SA 2 had the highest number of Surveys Received for all age groups as shown in Figure 1.2. SA 5 had the lowest number of Surveys Received for YSS-F, YSS, and Adults. SA 1 had the lowest number of Surveys received for Older Adults.

### **SURVEYS COMPLETED**

**FIGURE 1.3: RESPONSE RATE FOR SURVEYS COMPLETED BY AGE GROUP**

Completed surveys meet the following two criteria: Surveys with no Reason Code and surveys with sufficient identifying information for the Service Area, e.g. Client ID or Provider Number where the consumer received services. The four Reason Codes for not completing a survey are: Refused, Impaired, Language, and Other.

From the 6,805 surveys received from the YSS-F, 658 surveys were excluded because they were incomplete. Of the 658 excluded surveys, 613 reported a Reason Code and 45 did not have SA identifying information. From the 4,105 surveys received from the YSS, 388 surveys were excluded because they were incomplete. Of the 388 excluded surveys, 365 reported a Reason Code and 23 did not have identifying information for their SA. From the 8,027 Adult surveys received 1,705 were excluded because they were incomplete. Of the 1,705 excluded Adult surveys, 1,623 reported a Reason Code and 82 did not have SA identifying information. From the 625 surveys received from Older Adults, 169 surveys were excluded because they were incomplete. Of the 169 excluded surveys, 164 reported a Reason Code and 5 did not have SA identifying information.

The Response Rate for Surveys Completed by Age Group in Figure 1.3 were calculated by dividing the number of surveys completed by the number of consumers that received face-to-face services in LAC-DMH funded Clinics Outpatient and Day Treatment Programs during the survey period. Figure 1.3 shows that the Total Response Rate for Surveys Completed for all age-groups was 27.5%. The Completed Response Rate

for the YSS-F was 19.6%, for Youth and Adults it was 24%, and for Older Adults it was 15.8%. (See Technical Appendix, Part I for Response Rate for Surveys Completed by Age-Group for May and November).

**FIGURE 1.4: SURVEYS COMPLETED BY SERVICE AREA AND AGE GROUP**

Figure 1.4 shows that SA 2 had the highest number of Surveys Completed for all age groups and ranged from 17.7% for the YSS-F to 25.8% for Older Adults. SA 6 had the next highest number of Surveys Completed for all age groups and ranged from 11.3% for YSS to 19.9% for Older Adults. SA 8 also had a high number of Surveys Completed for all age groups and ranged from 12.5% for Older Adults to 16.7% for YSS.

#### **REASON CODES FOR NOT COMPLETING THE SURVEY**

**FIGURE 1.5: REASON CODES FOR NOT COMPLETING THE SURVEY BY AGE GROUP**

Figure 1.5 shows the four Reason Codes for Not Completing the Survey by Age Group: Refused, Impaired, Language, and Other. The highest percent of surveys not completed for all age-groups had a “Refused” Reason Code at 52.6%. The highest to lowest “Refused” Reason Code was for the YSS at 54.8%, Adults at 54.7%, Older Adults at 50.3%, and the YSS-F at 45.4%.

The “Language” Reason Code for all age groups was 8.8%. The highest to lowest “Language” Reason Code was Older Adults at 22.6%, Adults at 10.2%, YSS-F at 4.2% and YSS at 4.1%.

The “Impaired” Reason Code for all age groups was 13.3%. The highest to lowest “Impaired” Reason Code was Adults at 16.8%, Older Adults at 11.6%, YSS at 8.2% and YSS-F at 7.8%.

The “Other” Reason Code for all age groups was 25.3%. The highest to lowest “Other” Reason Code was YSS-F at 42.6%, YSS at 32.9%, Adults at 18.3% and Older Adults at 15.9%.

**TABLE 1.2: REASON CODES FOR NOT COMPLETING THE SURVEY BY SERVICE AREA

Table 1.2 shows Reason Codes for Not Completing the Survey by Service Area and Age Group for YSS-F and YSS. In SA 5, the YSS-F had the highest percent of surveys with a “Refused” Reason Code at 100% as compared with the lowest in SA 3 at 23.3%. In SA 6, the YSS-F had the highest percent of surveys with an “Impaired” Reason Code at 25.4% as compared with the lowest in SA 3 and SA 5 at 0% or none. In SA 8, the YSS-F had the highest percent of surveys with a “Language” Reason Code at 8.3% as compared with the lowest in SA 1 and SA 5 at 0% or none. In SA 3, the YSS-F had the highest percent of surveys with an “Other” Reason Code at 73.3% as compared with the lowest in SA 5 at 0% or none.

In SA 5, the YSS had the highest percent of surveys with a “Refused” Reason Code at 73.7% as compared with the lowest in SA 1 at 29.4%. In SA 7, the YSS had the highest percent of surveys with an “Impaired” Reason Code at 16.1% as compared with the lowest in SA 5 at 0% or none. In SA 7, the YSS had the highest percent of surveys with a “Language” Reason Code at 22.6% as compared with the lowest in SA 1, SA 3, SA 4 and SA 6 at 0% or none. In SA 1, the YSS had the highest percent of surveys with an “Other” Reason Code at 58.8% as compared with the lowest in SA 5 at 21.1%.

<b>Percent</b>	54.7%	16.8%	10.2%	18.3%	100%	50.0%	11.6%	22.6%	15.9%	100%

Table 1.3 shows that SA 3 Adults had the highest percent of surveys with a “Refused” Reason Code at 67.7% and SA 4 had the lowest at 23.5%. SA 5 Adults had the highest percent of “Impaired” Reason Code at 35.2% as compared with the lowest in SA 1 at 0% or none. SA 4 Adults had the highest percent of surveys with a “Language” Reason Code at 33.2% as compared with SA 6 at .4% and SA 1 at 0% or none. In SA 8 Adults had the highest percent of surveys with an “Other” Reason Code at 38.5% as compared with the lowest in SA 5 at 2.1%.

SA 3 Older Adults had the highest percent of surveys with a “Refused” Reason Code at 100% as compared with SA 1 at 0% or none. In SA 6 Older Adults had the highest percent of surveys with an “Impaired” Reason Code at 33.3% as compared with SA 1 and SA 3 at 0% or none. SA 4 Older Adults had the highest percent of surveys with a “Language” Reason Code at 44.0% as compared with SA 1, SA 5 and SA 6 at 0% or none. In SA 2 Older Adults had the highest percent of surveys with an “Other” Reason Code at 24.6% as compared with the lowest in SA 1, SA 3, SA 6 and SA 7 at 0% or none.

#### **SURVEYS RECEIVED AND COMPLETED BY LANGUAGE AND ETHNICITY**

**FIGURE 1.6: SURVEYS RECEIVED BY LANGUAGE AND AGE GROUP**

Figure 1.6 shows that the majority of consumers, 15,845 or 81% used English Survey Forms. A total of 3,550 or 18% Spanish Survey Forms were used: 2,445 for YSS-F, 911 for Adults, 125 for Older Adults, and 69 for YSS. A combined total of 167 or 1% of the Survey Forms were used in Chinese, Tagalog, Vietnamese and Russian.

**TABLE 1.4: “WAS WRITTEN INFORMATION AVAILABLE TO YOU IN THE LANGUAGE YOU PREFER?”  
BY AGE GROUP**

	Yes	No	Total
<b>YSS-F</b>	5,138	226	5,364
<b>Percent</b>	95.8%	4.2%	100%
<b>YSS</b>	2,914	229	3,143

Table 1.6 shows that in all Service Areas, a total of 95.8% of the YSS-F and 92.7% of the YSS reported that they had written information available to them in the language they prefer.

SA 3 and SA 8, at 97.1%, for the YSS-F, had the highest percent reporting that written information was available to them in the language they prefer as compared with the lowest percent in SA 4 at 93.1%. SA 5, at 95.3%, for the YSS, had the highest percent reporting that written information was available to them in the language they prefer as compared with the lowest percent in SA 4 at 89.0%.

<b>Percent</b>	<b>94.3%</b>	<b>5.7%</b>	<b>100%</b>	<b>95.0%</b>	<b>5.0%</b>	<b>100%</b>

Table 1.7 shows that in all Service Areas, a total of 94.3% of Adults and 95.0% of Older Adults reported that they had written information available to them in the language they prefer.

SA 1, SA 2 and SA 5, at 95.8%, for Adults, had the highest percent reporting that written information was available to them in the language they prefer as compared with the lowest percent in SA 8 at 91.8%. SA 1, at 100%, for Older Adults, had the highest percent reporting that written information was available to them in the language they prefer as compared with the lowest percent in SA 3 at 88.9%.

**FIGURE 1.7: SURVEYS RECEIVED BY ETHNICITY AND AGE GROUP**

Figure 1.7 shows the Surveys Received by Ethnicity and Age Group. It is important to note that survey respondents are asked to identify their ethnic background and race in two separate questions. In the first question, respondents are asked if they are of Mexican, Hispanic, or Latino origins and in the second question, they are asked to select from the following race categories: American Indian, Asian, Black, African/American, Native Hawaiian/Other Pacific Islander, White/Caucasian, Other, and Unknown. As such, where applicable, consumers may report multiple identifications with various ethnic and race categories.

Figure 1.7 shows that the YSS-F at 45.1%, the YSS at 37.4% and Adults at 26.9% had the highest percent of surveys received from “Latinos.” Older Adults had the highest percent of surveys received from “Whites” at 33.7%.

Please note that the ethnic categories have been collapsed throughout the report as shown in Figure 1.7.

**FIGURE 1.8: SURVEYS COMPLETED BY ETHNICITY AND AGE GROUP**

Figure 1.8 shows Surveys Completed by Ethnicity and Age Group. Figure 1.8 shows that the YSS-F at 46.5%, the YSS at 39.1% and Adults at 26.5% had the highest percent of surveys completed from “Latinos.” Older Adults had the highest percent of surveys completed from “Whites” at 30.8%.

Table 1.11 shows that Older Adults in SA 7 at 51.4% had the highest percent of surveys received from “Latinos.” SA 6 at 52.5% had the highest percent of surveys received from “African Americans.” SA 2 at 59.8% and SA 5 at 57.3% had the highest percent of surveys received from “Whites.” SA 4 at 32.6% had the highest percent of surveys received from “Asians.” SA 7 at 31.1% had the highest percent of surveys received from “Other”.

#### **DATA ANALYSIS OF OVERALL SATISFACTION AND PERCEPTION OF CARE SUBSCALE DOMAINS**

**TABLE 1.12: SUBSCALE RELIABILITY BY AGE GROUP**

Subscales	YSS-F	YSS	Adult	Older Adult
	Cronbach's Alpha ( $\alpha$ )			
General Satisfaction	0.89	0.88	0.84	0.89
Perception of Access	0.76	0.76	0.88	0.89
Perception of Quality and Appropriateness (Cultural Sensitivity)	0.94	0.89	0.92	0.93
Perception of Participation in Treatment Planning	0.79	0.74	0.62	0.71
Perception of Outcomes	0.92	0.85	0.92	0.94
Perception of Functioning	0.92	0.85	0.92	0.93
Perception of Social Connectedness	0.88	0.86	0.88	0.88

Cronbach's alpha was calculated to test the reliability of the subscales. Cronbach's alpha ( $\alpha$ ) is a reliability measure for calculating intraclass correlation between individual survey items. An alpha score of .70 or higher is considered reliable when at least 3 items are used to measure a Subscale. The reliability score for all the subscales was greater than 0.70 with the exception of Perception of Participation in Treatment Planning for Adults which had a Cronbach's alpha of .62. This can probably be attributed to this subscale having only 2 items.

**TABLE 1.13: ITEM MEASUREMENT FOR SUBSCALES BY AGE GROUP**

<b>YSS-F</b>	<b>YSS</b>	<b>Adult &amp; Older Adult</b>
General Satisfaction (6 items)	General Satisfaction (6 items)	General Satisfaction (3 items)
Access (2 items)	Access (2 items)	Access (6 items)
Quality (4 items)	Quality (4 items)	Quality (9 items)
Treatment (3 items)	Treatment (3 items)	Treatment (2 items)
Outcomes (6 items)	Outcomes (8 items)	Outcomes (6 items)
Functioning (5 items)	Functioning (5 items)	Functioning (5 items)
Social Connectedness (4 items)	Social Connectedness (4 items)	Social Connectedness (4 items)

Table 1.13 shows that the subscales are similar for all four age-groups. The items for the Overall Satisfaction scale and the seven (7) subscales are measured on a 5 point Likert scale with 1 = Strongly Disagree, 2 = Disagree, 3 = Undecided (for YSS-F and YSS) and I am Neutral (for Adults and Older Adults), 4 = Agree and 5 = Strongly Agree. The different items measuring the subscales and the number of items measuring the subscales in each domain were different for the Adults/Older Adults and the YSS-F/YSS. Therefore, the mean score for each subscale cannot be compared between Adults/Older Adults and the YSS-F/YSS. Please see the Technical Appendix for individual items for each subscale by age group.

**TABLE 1.14: MEAN<sup>1</sup> AND STANDARD DEVIATION FOR OVERALL SATISFACTION AND ALL SUBSCALE DOMAINS FOR YSS-F AND YSS**

	<b>YSS-F</b>		<b>YSS</b>		<b>Range</b>
	<b>Mean</b>	<b>SD</b>	<b>Mean</b>	<b>SD</b>	
<b>Overall Satisfaction (Scale)</b>	121.8	16.6	116.3	17.9	29 – 145
<b>Satisfaction Subscales</b>					
General Satisfaction	21.8	3.3	20.2	4.0	5 – 25
Perception of Access	8.7	1.5	7.9	1.7	2 – 10
Perception of Quality and Appropriateness (Cultural Sensitivity)	18.1	2.5	16.8	3.0	4 – 20
Perception of Participation in Treatment Planning	12.9	2.0	11.5	2.3	3 – 15
Perception of Outcomes	23.2	4.8	23.3	4.4	6 – 30
Perception of Functioning	19.4	4.0	19.5	3.7	5 – 25
Perception of Social Connectedness	17.0	2.7	16.4	3.0	4 – 20

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

Table 1.14 shows the mean score for Overall Satisfaction for the YSS-F at 121.8 and for the YSS at 116.3. The mean score for subscales such as General Satisfaction, Perception of Access, Perception of Quality and Appropriateness, Perception of Participation in Treatment Planning, and Perception of Social Connectedness were slightly lower for the YSS as compared with the YSS-F.

The mean score for General Satisfaction for the YSS-F was 21.8 and 20.2 for the YSS. The mean score on Perception of Quality and Appropriateness (Cultural Sensitivity) was slightly higher for the YSS-F at 18.1 as compared with the YSS at 16.8. The mean score for Perception of Outcomes and Perception of Functioning were similar for both the YSS-F at 23.2 and the YSS at 23.3. The mean score for Perception of Functioning was also similar for both the YSS-F at 19.4 and the YSS at 19.5.

**TABLE 1.15: MEAN<sup>1</sup> AND STANDARD DEVIATION FOR OVERALL SATISFACTION AND ALL SUBSCALE DOMAINS FOR ADULT AND OLDER ADULT**

	Adult		Older Adult		Range
	Mean	SD	Mean	SD	
Overall Satisfaction (Scale)	153.7	22.5	161.1	21.8	37 - 185
<b>Satisfaction Subscales</b>					
General Satisfaction	13.3	2.1	13.8	1.8	3 - 15
Perception of Access	25.6	4.2	26.6	3.9	6 - 30
Perception of Quality and Appropriateness (Cultural Sensitivity)	38.7	5.8	40.0	5.5	9 - 49
Perception of Participation in Treatment Planning	8.5	1.5	8.8	1.4	2 - 10
Perception of Outcomes	31.5	6.2	33.2	6.1	8 - 40
Perception of Functioning	19.4	4.3	20.4	4.1	5 - 25
Perception of Social Connectedness	15.6	3.5	16.1	3.3	4 - 20

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

In Table 1.15 the mean score for Overall Satisfaction for Older Adults was 161.1 and 153.7 for Adults. The mean score for all subscales was slightly higher for Older Adults as compared with Adults.

The mean score for Perception of Outcomes for Older Adults was 33.2 and 31.5 for Adults. The mean score for Perception of Functioning was 20.4 for Older Adults and 19.4 for Adults. The mean score for Perception of Social Connectedness was 16.1 for Older Adults and 15.6 for Adults.

\* Statistically significant at  $p \leq 0.05$

NOTE: Highest and lowest means are in bold for subscales with statistically significant differences by Service Area.

Table 1.16 shows the test of variance (ANOVA test) for each of the YSS-F subscales and test for significant differences by Service Area. In the YSS-F there were significant differences for: Overall Satisfaction, General Satisfaction, Perception of Quality and Appropriateness, Perception of Outcomes, Perception of Functioning and Perception of Social Connectedness.

The YSS-F in SA 4 had the highest score for Overall Satisfaction at 125.0 and SA 1 had the lowest score at 119.3. SA 4 had the highest score on General Satisfaction at 22.1 and SA 1 and SA 6 had the lowest score at 21.4. SA 5 had the highest score on Perception of Quality and Appropriateness at 18.5 and SA 6 had the lowest score at 17.8. Perception of Outcomes was highest in SA 4 at 24.5 and lowest in SA 1 at 22.3. Perception of Functioning was highest in SA 4 at 20.5 and lowest in SA 1 at 18.6. Perception of Social Connectedness was highest in SA 4 and SA 8 at 17.2 and lowest in SA 1 at 16.7.

\* Statistically significant at  $p \leq 0.05$

NOTE: Highest and lowest means are in bold for subscales with statistically significant differences by Service Area.

Table 1.17 shows that in the YSS there were significant SA subscale differences for: Overall Satisfaction, General Satisfaction, Perception of Access and Perception of Quality and Appropriateness.

The YSS in SA 6 had the highest score on Overall Satisfaction at 118.7, and SA 2 had the lowest score at 114. SA 6 had the highest score at 20.8 on General Satisfaction, and SA 2 had the lowest score at 19.7. Perception of Access was highest in SA 6, SA 7 and SA 8 at 8.1 and lowest in SA 2, SA 3 and SA 4 at 7.8.

Perception of Quality and Appropriateness was highest in SA 7 at 17.4 and lowest in SA 2 at 16.4.

\* Statistically significant at  $p \leq 0.05$

NOTE: Highest and lowest means are in bold for subscales with statistically significant differences by Service Area.

Table 1.18 shows that for Adults there were significant Service Area differences for all of the subscale domains. Overall Satisfaction was highest in SA 4 at 155.5 and lowest in SA 1 and SA 5 at 150.0. General Satisfaction was highest in SA 1, SA 2 and SA 7 at 13.4 and lowest in SA 3, SA 5 and SA 8 at 13.1. Perception of Access was highest in SA 2 at 25.9 and lowest in SA 5 at 25.1.

Perception of Quality and Appropriateness was highest in SA 6 at 39.2 and lowest in SA 3 at 37.9. Perception of Participation in Treatment Planning was highest in SA 1 at 8.7 and lowest in SA 3 and SA 5 at 8.3. Perception of Outcomes was highest in SA 4 at 32.2 and lowest in SA 1 at 30.2. Perception of Functioning was highest in SA 6 at 19.7 and lowest in SA 1 at 18.4. Perception of Social Connectedness was highest in SA 2 and SA 7 at 15.8 and lowest in SA 1 at 15.0.

**TABLE 1.19: OLDER ADULT - SIGNIFICANT DIFFERENCES OF SUBSCALES BETWEEN SERVICE AREAS**

	Overall Satisfaction *	General Satisfaction	Perception of Access	Perception of Quality and Appropriateness (Cultural Sensitivity) *	Perception of Participation in Treatment Planning	Perception of Outcomes *	Perception of Functioning *	Perception of Social Connectedness *
<b>SA 1</b>	<b>143.0</b>	14.0	25.5	<b>35.0</b>	8.8	<b>27.6</b>	<b>17.3</b>	<b>14.3</b>
<b>SA 2</b>	156.5	13.8	26.4	38.6	8.5	31.8	19.7	15.7
<b>SA 3</b>	150.0	14.4	27.1	39.0	8.6	32.9	20.3	16.4
<b>SA 4</b>	164.6	13.6	27.4	40.0	9.1	34.2	21.0	15.8
<b>SA 5</b>	152.9	13.5	26.1	39.2	8.6	33.3	20.2	15.7

<b>SA 8</b>	158.8	13.6	25.7	40.4	8.8	33.0	19.7	16.4
<b>Total</b>	<b>161.1</b>	<b>13.8</b>	<b>26.6</b>	<b>40.0</b>	<b>8.8</b>	<b>33.2</b>	<b>20.4</b>	<b>16.1</b>

\* Statistically significant at  $p \leq 0.05$

NOTE: Highest and lowest means are in bold for subscales with statistically significant differences by Service Area.

Table 1.19 shows that for Older Adults there were significant Service Area differences for: Overall Satisfaction, Perception of Quality and Appropriateness, Perception of Outcomes, Perception of Functioning, and Perception of Social Connectedness.

The mean score for Overall Satisfaction was highest in SA 6 at 173.9 and lowest in SA 1 at 143.0. Perception of Quality and Appropriateness was highest in SA 6 at 42.2 and lowest in SA 1 at 35.0. Perception of Outcomes was highest in SA 6 at 36.2 and lowest in SA 1 at 27.6. Perception of Functioning was highest in SA 6 at 21.7 and lowest in SA 1 at 17.3. Perception of Social Connectedness was highest in SA 6 at 16.9 and lowest in SA 1 at 14.3.

For all Older Adult significant subscale differences by Service Area, SA 6 was consistently the highest and SA 1 was consistently the lowest.

## **DATA ANALYSIS OF QUALITY OF LIFE SUBSCALES**

**TABLE 1.20: ITEMS USED TO MEASURE QUALITY OF LIFE SUBSCALES FOR ADULT & OLDER ADULT**

<b>Perception of Living Situation</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the living arrangements where you live?</li> <li>2. How do you feel about the privacy you have there?</li> <li>3. How do you feel about the prospect of staying on where you currently live for a long period of time?</li> </ol>
<b>Perception of Daily Activities &amp; Functioning</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the way you spend your spare time?</li> <li>2. How do you feel about the chance you have to enjoy pleasant or beautiful things?</li> <li>3. How do you feel about the amount of fun you have?</li> <li>4. How do you feel about the amount of relaxation in your life?</li> </ol>
<b>Perception of Family Relationships</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the way you and your family act toward each other?</li> <li>2. How do you feel about the way things are in general between you and your family?</li> </ol>
<b>Time Spent with Family<sup>1</sup></b>	<ol style="list-style-type: none"> <li>1. About how often do you visit with someone who does not live with you?</li> <li>2. About how often do you spend time with someone you consider more than a friend, like a spouse, a boyfriend or a girlfriend?</li> </ol>
<b>Perception of Social Relations</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the things you do with other people?</li> <li>2. How do you feel about the amount of time you spend with other people?</li> <li>3. How do you feel about the people you see socially?</li> <li>4. How do you feel about the amount of friendship in your life?</li> </ol>
<b>Finances<sup>1</sup></b>	<ol style="list-style-type: none"> <li>1. During the past month, did you generally have enough money to cover food?</li> <li>2. During the past month, did you generally have enough money to cover clothing?</li> <li>3. During the past month, did you generally have enough money to cover housing?</li> <li>4. During the past month, did you generally have enough money to cover traveling around for things like shopping, medical appointments, or visiting friends and relatives?</li> <li>5. During the past month, did you generally have enough money for social activities like movies or eating in restaurants?</li> </ol>
<b>Crime Victim on Past Month</b>	<ol style="list-style-type: none"> <li>1. In the past month, were you the victim of any violent crimes such as assault, rape, mugging or robbery?</li> <li>2. In the past month, were you the victim of any non-violent crimes such as burglary, theft of your property or money, or being cheated?</li> </ol>
<b>Perception of Legal Safety</b>	<ol style="list-style-type: none"> <li>1. How do you feel about how safe you are on the streets in your neighborhood?</li> <li>2. How do you feel about how safe you are where you live?</li> <li>3. How do you feel about the protection you have against being robbed or attacked?</li> </ol>
<b>Perception of Health</b>	<ol style="list-style-type: none"> <li>1. How do you feel about your health in general?</li> <li>2. How do you feel about your physical condition?</li> <li>3. How do you feel about your emotional well-being?</li> </ol>

Perception of Health	12.58	4.39	12.91	4.02	3.00 - 21.00

<sup>1</sup> Questions not asked in the MHSIP Older Adult Survey

Table 1.21 shows Older Adults had slightly higher scores on all the measured Quality of Life subscales except for Crime Victim in the Past Month, where Adults had a higher mean score at .19 as compared with .14 for Older Adults.

For additional Quality of Life differences by Service Area, please see Technical Appendix, Page 87.

**TABLE 1.22: SIGNIFICANT GENDER DIFFERENCES IN QUALITY OF LIFE SUBSCALES**

Quality of Life	Male		Female	
Adult	Mean	SD	Mean	SD
Time Spent with Family*	7.49	3.37	7.45	3.16

\* Statistically significant at  $p \leq 0.05$

Table 1.22 shows that there were no significant gender differences with the exception of Time Spent with Family. Males had a higher mean score at 7.49 as compared with females at 7.45.

**TABLE 1.23: ADULT – SIGNIFICANT\* DIFFERENCES BY ETHNICITY IN QUALITY OF LIFE SUBSCALES**

Quality of Life Subscales	White		Non-White <sup>1</sup>

	Mean	SD	Mean	SD
Perception of Living Situation	12.75	5.59	13.56	4.63
Perception of Daily Activities & Functioning	17.31	6.70	18.16	5.46
Time Spent with Family	8.54	4.00	9.43	3.39
Perception of Social Relations	18.36	6.94	19.37	5.53
Crime Victim in Past Month	0.36	0.65	0.18	0.49

\* Statistically significant at  $p \leq 0.05$ . <sup>1</sup> Ethnic differences are tested for one ethnic group compared with ALL other ethnic groups.

Table 1.23 shows Significant Differences By Ethnicity in the Quality of Life Subscales for Adults. Two (2) of the subscales for Adult “Whites” had higher mean scores as compared with Adult “Non Whites” for: Time Spent with Family at 9.51 as compared with 9.37, and Perception of Legal Safety at 14.25 as compared with 13.15.

The subscale for Crime Victim in the Past Month had a higher mean score for Adult “African Americans” at .22 as compared with Adult “Non-African Americans” at .17. Five (5) of the subscales for Adult “African Americans” had lower mean scores as compared with Adult “Non-African Americans” for: Perception of Living Situation at 13.07 as compared 13.69, Time Spent with Family at 6.94 as compared with 7.65, Perception of Social Relations at 19.09 as compared with 19.44, Finances at 2.84 as compared with 2.99, and Perception of Legal safety at 12.86 as compared with 13.73

Two (2) of the subscales for Adult “Latinos” had higher mean scores as compared with Adult “Non Latinos” for: Perception of Living situation at 13.61 as compared with 13.52 and Time Spent with Family at 9.45 as compared with 9.40. The subscale for Crime Victim in the Past Month had a lower mean score for Adult “Latinos” at .16 as compared with Adult “Non Latinos” at .20.

Three (3) of the subscales for Adult “Asians” had higher mean scores as compared with Adult “Non Asians” for: Perception of Family Relationships at 7.62 as compared with 7.47, Finances at 3.44 as compared with 2.93, and Crime Victim in Past Month at .21 as compared with .18.

The subscale for Crime Victim in the Past Month had a higher mean score for Adult “Pacific Islander” at .36 as compared with Adult “Non Pacific Islander” at .18. Four (4) of the subscales for Adult “Pacific Islanders” had lower mean scores as compared with Adult “Non Pacific Islanders” for: Perception of

Living Situation at 12.75 as compared with 13.56, Perception of Daily Activities and Functioning at 17.31 as compared with 18.16, Time Spent with Family at 8.54 as compared with 9.43, and Perception of Social Relations at 18.36 as compared with 19.37.

**TABLE 1.24: OLDER ADULT – SIGNIFICANT\* DIFFERENCES BY ETHNCITY IN QUALITY OF LIFE SUBSCALES**

Older Adult	White		Non-White <sup>1</sup>	
	Mean	SD	Mean	SD
Perception of Legal Safety	14.36	3.88	13.30	4.66
	African American		Non-African American <sup>1</sup>	
	Mean	SD	Mean	SD
Perception of Living Situation	13.32	5.42	14.01	5.36
Perception of Legal Safety	13.61	5.41	13.70	4.19
	Pacific Islander		Non-Pacific Islander <sup>1</sup>	
	Mean	SD	Mean	SD
Crime Victim in Past Month	0.67	1.15	0.13	0.40

\* Statistically significant at  $p \leq 0.05$ . <sup>1</sup> Ethnic differences are tested for one ethnic group compared with ALL other ethnic groups.

Table 1.24 shows Significant Differences By Ethnicity in the Quality of Life Subscales for Older Adults. The subscale for Perception of Legal Safety had a higher mean score for Older Adult “Whites” at 14.36 as compared with Older Adult “Non-Whites” at 13.30.

Two (2) of the subscales for Older Adult “African Americans” had lower mean scores as compared with Older Adult “Non-African Americans” for Perception of Living Situation at 13.32 as compared with 14.01, and Perception of Legal Safety at 13.61 as compared with 13.70.

The subscale for Crime Victim in the Past Month has a higher mean score for Older Adult “Pacific Islanders” at .67 as compared with Older Adult “Non-Pacific Islanders” at .13.

#### **MEDICATION RESPONSE FOR YSS-F & YSS**

**TABLE 1.25: YSS-F- IN THE LAST YEAR, DID YOUR CHILD SEE A MEDICAL DOCTOR OR NURSE FOR A HEALTH CHECK-UP OR BECAUSE HE/SHE WAS SICK? (N=6,761)**

<b>Total</b>	<b>2,060</b>	<b>364</b>	<b>558</b>	<b>612</b>	<b>488</b>	<b>4,082</b>
<b>Percent</b>	<b>50.5%</b>	<b>8.9%</b>	<b>13.7%</b>	<b>15.0%</b>	<b>12.0%</b>	<b>100%</b>

Table 1.29 shows that in all Service Areas a total of 50.5% of the YSS reported that: “In the Last Year, They had Seen a Medical Doctor or Nurse for a Health Check-Up in a Clinic/Office Because He/She Was Sick,” as compared with 13.7% that had not. In all Service Areas, a total of 8.9% of the YSS reported that: “They Had Seen a Medical Doctor or a Nurse for a Health Check-Up Because He/She Was Sick But Only in a Hospital or Emergency Room.”

SA 3, at 54.8%, for the YSS, had the highest percent reporting that: “In the Last Year, They Had Seen a Medical Doctor or a Nurse for a Health Check-Up in a Clinic/Office Because He/She Was Sick,” as compared with the lowest percent in SA 5 at 46.0%.

SA 5, at 11.6%, for the YSS, had the highest percent reporting that: “In the Last Year, They Had Seen a Medical Doctor or a Nurse for a Health Check-Up Because He/She Was Sick But Only in a Hospital or Emergency Room,” as compared with the lowest percent in SA 6 at 7.1%.

**TABLE 1.30: YSS - ARE YOU ON MEDICATION FOR EMOTIONAL/ BEHAVIORAL PROBLEMS? (N=4,082)**

	<b>Yes</b>	<b>No</b>	<b>No Response</b>	<b>Total</b>

<b>Total</b>	<b>2,867</b>	<b>381</b>	<b>834</b>	<b>4,082</b>
<i>Percent</i>	<b>70.2%</b>	<b>9.3%</b>	<b>20.4%</b>	<b>100%</b>

Table 1.32 shows that in all Service Areas, a total of 70.2% of the YSS reported that they had Medi-Cal (Medicaid) insurance as compared with 9.3% that did not.

SA 3, at 78.1%, for the YSS, had the highest percent reporting that they had Medi-Cal (Medicaid) insurance as compared with the lowest percent in SA 2 at 58.4%.

SA 5 at 14.8% had the highest percent of non Medi-Cal insured Youth and SA 2 at 14.1%, and SA 7 at 13.6% had the next highest.

## **PART II**

### **COUNTY PERFORMANCE OUTCOMES – SUMMARY REPORT CLINIC AND FIELD BASED SURVEYS MAY AND NOVEMBER 2008**

#### **BACKGROUND**

The County Performance Outcomes were developed in compliance with the County of Los Angeles Board of Supervisors requirements for Performance Outcomes for social service departments effective December 31, 2007. The LAC-DMH County Performance Outcomes were selected consistent with the State Performance Outcomes System by an interdisciplinary team of stakeholders that were created in 2007 and included representatives from directly operated and contracted providers, the Office of the Auditor-Controller, and other involved stakeholders. The LAC-DMH adopted the seven (7) recommended performance measures selected from the State Performance Outcomes surveys of the Mental Health Statistics Improvement Program (MHSIP for Adult, Older Adult, YSS-F and YSS), in consideration of the following criteria: to support and focus on existing consumer/family initiatives and performance outcome measures; to foster cost neutrality; to reduce duplicative efforts; to collect performance outcome baseline data for 2008 and, to create opportunities for partnering with providers for Quality Improvement purposes.

A brief survey was developed in order to expand the administration of the seven (7) selected performance measures from Clinic Outpatient and Day Treatment Programs to include Field and School Based mental health programs for the seven (7) selected performance measures in each of the four age-group surveys. These surveys are referred to in Part II of this report as “Field Based” or “Field” surveys to differentiate the identical (7) selected performance measures of the State Performance Outcome surveys, which are only administered in Clinic Outpatient and Day Treatment Programs (See Part I). Lastly, Part III contains the two (2) additional County Performance measures for timely access to services for persons discharged from psychiatric inpatient hospitals and residential treatment facilities/institutional settings.

In total, there are nine (9) County Performance Outcome measures with seven (7) that use survey data and two (2) that use the LAC-DHM IS Claims Data.

#### **DESCRIPTION OF THE COUNTY PERFORMANCE OUTCOMES**

Part II summarizes the results of the County Performance Outcomes for the seven (7) selected survey items taken from the State Performance Outcome surveys administered in Clinic Outpatient and Day Treatment Programs, referred to as “Clinic” surveys, and the identical seven (7) items from the surveys administered in school and field based programs, referred to as “Field Based” or “Field” surveys. Together, both data sets constitute the County Performance Outcomes and Part II summarizes results for the Clinic and Field Based surveys administered in the eight (8) Service Areas of Los Angeles County during two separate survey periods. The survey periods are: May 12, 2008 to May 23, 2008 and November 3, 2008 to November 17, 2008. The County Performance Outcome surveys for the four (4) age groups are described below:

YOUTH SERVICES SURVEY FOR FAMILIES (YSS-F, FAMILY MEMBER OF CONSUMER'S AGES 0-17)

1. I felt my child had someone to talk to when he/she was troubled. (Source: YSS-F, #5)
2. The location of services was convenient for me. (Source: YSS-F, #8)
3. Services were available at times that were convenient for us (Source: YSS-F, #9)
4. Staff was sensitive to my cultural/ethnic background. (Source: YSS-F, #15)
5. My child gets along better with family members. (Source: YSS-F, #17)
6. My child is doing better in school and/or work. (Source: YSS-F, #19)
7. In a crisis, I would have the support I need from family or friends Source: (YSS-F, #25)

YOUTH SERVICES SURVEY FOR YOUTH (YSS) (Ages 13-17)

1. I felt I had someone to talk to when I was troubled. (Source: YSS, #5)
2. The location of services was convenient for me. (Source: YSS, #8)
3. Services were available at times that were convenient for us. (Source: YSS, #9)
4. Staff was sensitive to my cultural/ethnic background. (Source: YSS, #15)
5. I get along better with family members. (Source: YSS, #17)
6. I am doing better in school and/or work. (Source: YSS, #19)
7. In a crisis, I would have the support I need from family or friends. (Source: YSS, #25)

ADULTS (Ages 18-59)

1. The location of services was convenient. (Source: Adult MHSIP, #4)
2. Staff was willing to see me as often as I felt it was necessary. (Source: Adult MHSIP, #5)
3. Services were available at times that were good for me. (Source: Adult MHSIP, #7)
4. Staff was sensitive to my cultural background. (Source: Adult MHSIP, #18)
5. I deal more effectively with daily problems. (Source: Adult MHSIP, #21)
6. I do better in school and/or work. (Source: Adult MHSIP, #26)
7. My symptoms are not bothering me as much. (Source: Adult MHSIP, #28)

OLDER ADULTS (Ages 60 +)

1. The location of services was convenient. (Source: Adult MHSIP, #4)
2. Staff was willing to see me as often as I felt it was necessary. (Source: Adult MHSIP, #5)
3. Services were available at times that were good for me. (Source: Adult MHSIP, #7)
4. Staff was sensitive to my cultural background. (Source: Adult MHSIP, #18)
5. I deal more effectively with daily problems. (Source: Adult MHSIP, #21)
6. I do better in school and/or work. (Source: Adult MHSIP, #26)
7. My symptoms are not bothering me as much. (Source: Adult MHSIP, #28)

The following four Outcome Measures are common to all four age-group surveys:

- The location of services was convenient for me.
- Services were available at times that were convenient/good for me/us.
- Staff was sensitive to my cultural/ethnic background.
- I/my child is doing better in school and/or work.

The following three Outcome Measures are common to the YSS-F and the YSS.

- My child/I had someone to talk to when troubled.
- My child/I get along better with family members.
- In a crisis, I would have the support I need from family or friends.

The following three Outcome Measures are common to the Adult and Older Adult surveys.

- Staff was willing to see me as often as I felt it was necessary.
- I deal more effectively with my daily problems.
- My symptoms are not bothering me as much.

The following Tables and Figures summarize the Baseline Data County Performance Outcome results obtained during the May 2008 and November 2008 survey periods.

## SURVEYS RECEIVED

**TABLE 2.1: SURVEYS RECEIVED BY AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Age Group	May 2008			November 2008		
	Clinic	Field	Total	Clinic	Field	Total
<b>YSS-F (0-17)</b>	6,790 73.1%	2,493 26.9%	9,283 100%	6,805 70.7%	2,818 29.3%	9,623 100%
<b>YSS (13-17)</b>	4,174 66.6%	2,096 33.4%	6,270 100%	4,105 64.8%	2,228 35.2%	6,333 100%
<b>Adult (18-59)</b>	8,669 92.1%	747 7.9%	9,416 100%	8,027 89.8%	910 10.2%	8,937 100%
<b>Older Adult (60+)</b>	772 93.9%	50 6.1%	822 100%	625 73.2%	229 26.8%	854 100%
<b>Total</b>	<b>20,405</b> <b>79.1%</b>	<b>5,386</b> <b>20.9%</b>	<b>25,791</b> <b>100%</b>	<b>19,562</b> <b>76.0%</b>	<b>6,185</b> <b>24.0%</b>	<b>25,747</b> <b>100%</b>

Table 2.1 shows that in May a total of 25,791 surveys were received, with 20,405 or 79% received from Clinics and 5,386 or 21% received from the Field. In November, a total of 25,747 surveys were received, with 19,562 or 76% received from Clinics and 6,185 or 24% received from the Field.

Adults had the highest number of surveys received in May from Clinics and the Field at 9,416 or 37% and in November at 8,937 or 35%. Older Adults had the lowest number of surveys received in May from Clinics and the Field at 822 and in November at 854 or 3%.

Adults had the highest number of surveys received in May from Clinics at 8,669 or 92% and at 8,027 or 90% in November. The YSS had the lowest number of surveys received in May from Clinics at 4,174 or 66% and 4,105 or 65% in November.

**FIGURE 2.1: SURVEYS RECEIVED BY SERVICE AREA AND AGE GROUP  
CLINIC & FIELD BASED SURVEYS  
November**

Figure 2.1 shows that SA 2 had the highest number of Surveys Received from Clinics and the Field for Older Adults at 25.3%, Adults at 20.8% and the YSS-F at 16.9%. SA 3 had the highest number of Surveys Received for the YSS at 21.4%

SA 8 had the second highest number of Surveys Received for all age groups ranging from 15.0% for Older Adults to 17.3% for Adults.

SA 6 had the next highest number of Surveys Received for all age groups ranging from 12.5% for the YSS to 16.6% for Adults.

See the Technical Appendix page 85 for number of surveys received by Service Area in May.

## **SURVEY COMPLETED**

**FIGURE 2.2: SURVEYS COMPLETED BY SERVICE AREA AND AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Figure 2.2 shows that SA 2 had the highest number of Surveys Received from Clinics and the Field for Older Adults at 23.6%, Adults at 21.0% and the YSS-F at 17.2%. SA 3 had the highest number of Surveys Completed for the YSS at 21.8%

SA 6 had the second highest number of Surveys Completed for Adults at 17.2%, the YSS-F at 16.5% and Older Adults at 15.8%. SA 8 had the second highest number of Surveys Completed for the YSS at 16.3%.

See the Technical Appendix page 88 for number of surveys completed by Service Area in May.

## REASON CODES FOR NOT COMPLETING THE SURVEYS

**FIGURE 2.3: REASON CODES FOR NOT COMPLETING THE SURVEY BY AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Figure 2.3 shows the Four Reason Codes for Not Completing the Surveys in Clinics and the Field by Age Group: Refused, Impaired, Language and Other. The highest percent of surveys not completed for all age-groups in the Clinics and the Field had a “Refused” Reason Code at 50.1%. The highest to lowest “Refused” Reason Code was for Adults at 55.1%, Older Adults at 54.0%, YSS at 47.7% and the YSS-F at 40.5%.

The “Impaired” Reason Code for all age groups in Clinics and the Field was 13.1%. The highest to lowest “Impaired” Reason Code was Adults at 16.8%, Older Adults at 10.7%, the YSS-F at 9.0% and YSS at 8.0%.

The “Language” Reason Code for all age groups in Clinics and the Field was 7.7%. The highest to lowest “Language” Reason Code was Older Adults at 19.8%, Adults at 9.6%, YSS-F at 3.8% and the YSS at 3.6%.

The “Other” Reason Code for all age groups in Clinics and the Field was 29.1%. The highest to lowest “Other” Reason Code was YSS-F at 46.7%, YSS at 40.7%, Adults at 18.4% and Older Adults at 15.5%.

## RESPONSE RATE

**FIGURE 2.4: RESPONSE RATE FOR SURVEYS RECEIVED BY AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

In Figure 2.4 the Response Rate for Surveys Received from Clinics and the Field by Age Group in May and November were calculated by dividing the number of surveys received by the number of consumers that received face-to-face services in LAC-DMH funded Clinic Outpatient and Day Treatment Programs or in Field Based Programs during the same survey period.

The Total Response Rate for Surveys Received for all age groups was 44.1% in May and 42.6% in November.

The YSS had the highest Response Rate for Surveys Received at 42.3% in May and 41.4% in November. The second highest Response Rate was for Adults at 35.9% in May and 34.0% in November. The YSS-F at 31% and Older Adults at 30% had the lowest Response Rates in both May and November.

**FIGURE 2.5: RESPONSE RATE FOR SURVEYS COMPLETED BY AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Completed surveys meet the following two criteria: Surveys with no Reason Code (Refused, Impaired, Language, Other) and surveys with sufficient identifying information for the Service Area, e.g. Client ID or Provider Number where the consumer received services.

Figure 2.5 shows that the Total Response Rate for Surveys Completed from Clinics and the Field for all age groups was 36.0% in May and 35.7% in November.

The YSS had the highest Response Rate for Surveys Completed at 37.2% in May and 34.7% in November. The second highest Response Rate was for the YSS-F at 27.4% in May and 27.8% in November. Older Adults had the lowest Response Rate at 14.8% in May and 22.2% in November.

## SURVEYS RECEIVED AND COMPLETED BY ETHNICITY AND AGE GROUP

**FIGURE 2.6: SURVEYS RECEIVED BY ETHNICITY AND AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Figure 2.6 shows Surveys Received by Ethnicity and Age Group in Clinics and the Field. The YSS-F at 45.8%, the YSS at 41.1% and Adults at 27.4% had the highest percent of Surveys Received from “Latinos.” Older Adults had the highest percent of Surveys Received from “Whites” at 36.1%.

**FIGURE 2.7: SURVEYS COMPLETED BY ETHNICITY AND AGE GROUP  
CLINIC & FIELD BASED SURVEYS**

Figure 2.7 shows Surveys Completed by Ethnicity and Age Group in Clinics and the Field. The YSS-F at 46.1%, the YSS at 41.0% and Adults at 28.7% had the highest percent of Surveys Completed from “Latinos.” Older Adults had the highest percent of Surveys Completed from “Whites” at 36.2%.

**FIGURE 2.8: RESPONSE RATE FOR SURVEYS COMPLETED BY ETHNICITY AND AGE GROUP  
CLINIC & FIELD BASED SURVEYS  
November**

The Response Rate for Surveys Completed by Ethnicity and Age Group in Figure 2.8 were calculated by dividing the number of surveys completed by the number of consumers that received services during the survey period. The surveys allow consumers to report more than one ethnic group. However, the LAC-DMH IS system that was used to calculate number of consumers served during the survey period reports only one ethnic group for each consumer. In the Clinic and Field Surveys “Native Americans” and “Other” ethnic groups generally reported more than one ethnic group identification. For these two ethnic groups, number of consumers served exceeded the number of surveys completed. As such, Response Rates for “Native Americans” and “Other” could not be calculated because they were not accurate.

Response Rates by ethnicity were calculated for White, African American, Latinos and Asian/Pacific Islander. Due to the differences in the way ethnicity is reported in the surveys and is recorded in the LAC-DMH IS system, these Response Rates should be interpreted with caution.

Figure 2.8 shows that the highest Response Rate by ethnicity for all age-groups is: “Whites” at 37.0%, “Latinos” at 29.2%, “Asian/Pacific Islander” at 26.8% and “African Americans” at 26.2%.

The YSS-F highest to lowest Response Rates by ethnicity are: “Whites” at 44.2%, “Asian/Pacific islander” at 30.4%, “Latinos” at 28.5% and “African American” at 24.8%.

The YSS highest to lowest Response Rates by ethnicity are: “Whites” at 50.2%, “Asian/Pacific Islander” at 43.6%, “Latinos” at 35.1% and “African American” at 32.9%.

The Adult highest to lowest Response Rates by ethnicity are: “Whites” at 31.0%, “Latinos” at 25.6%, “Asian/Pacific Islander” at 24.8%, African American” at 24.1%.

The Older Adult highest to lowest Response Rates by ethnicity are: “African Americans” at 25.9%, “Whites” at 23.7%, “Latinos” at 22.5% and “Asian/Pacific Islanders” at 13.4%.

## DATA ANALYSIS FOR COUNTY PERFORMANCE OUTCOME MEASURES

**TABLE 2.2: AVERAGE PERCENT STRONGLY AGREE OR AGREE WITH COUNTY PERFORMANCE OUTCOMES  
YSS-F & YSS**

Outcome Measure		YSS-F			YSS		
		May (N =7,648 )	Nov (N =8,463 )	Average <sup>1</sup>	May (N =5,282 )	Nov (N =5,684 )	Average <sup>1</sup>
1.	I Felt My child/I had someone to talk when He/She/I was troubled.	91.9%	91.7%	91.8%	80.3%	80.6%	80.4%
2.	Location of services was convenient for us/me.	91.8%	92.3%	92.0%	80.6%	81.3%	81.0%
3.	Services were available at times that were convenient for us/me.	93.0%	93.7%	93.3%	79.6%	80.0%	79.8%
4.	Staff were sensitive to my cultural/ethnic background.	95.2%	94.9%	<b>95.0%</b>	82.6%	83.2%	<b>82.9%</b>
5.	My child/I gets along better with family members.	75.2%	75.2%	75.2%	69.0%	69.4%	<b>69.2%</b>
6.	My child/I are doing better in school and /or work.	73.6%	73.7%	<b>73.7%</b>	72.3%	73.0%	72.7%
7.	In a crisis, I would have the support I need from family or friends.	86.6%	86.5%	86.6%	80.6%	81.0%	80.8%

<sup>1</sup>Highest and lowest averages are in bold.

Table 2.2 shows the percent of the YSS-F and the YSS that “Strongly Agree” or “Agree” with the Seven (7) County Performance Outcomes in both Survey Periods. In order to establish a CY 2008 baseline benchmark for the County Performance Outcomes, an average percentage was computed for both Survey Periods for each Outcome Measure. The average percentages were computed after no statistically significant differences were found between the May and November Survey Periods.

The YSS-F average percents for both the Survey Periods that “Strongly Agree” or “Agree” with the County Performance Outcomes were: (4.) “Staff was sensitive to my cultural/ethnic background” at 95%; (3.) “Services were available at times that were convenient” at 93.3%; (2.) “Location of services was convenient” at 92%; (1.) “I Felt my child had someone to talk when he/she was troubled” at 91.8%; (7.) “In Crisis I would have the support I need family or friends” at 86.6%; (5.) “My child gets along better with family members” at 75.2%; and (6.) “My child is doing better in school and /or work” at 73.7%.

The YSS average percents in both Survey Periods for “Strongly Agree” or “Agree” with the County Performance Outcomes were: (4.) “Staff was sensitive to my cultural/ethnic Background” at 82.9%; (2.) “Location of services was convenient” at 81%; (7.) “In crisis I would have the support I need from family or friends” at 80.8%; (1.) “I felt I had someone to talk when I was troubled” at 80.4%; (3.) “Service were available at times that were convenient” at 79.8%; (6.) “I am doing better in school and/or work” at 72.7%; and (5.) “I get along better with family members” at 69.2%.

**TABLE 2.3: AVERAGE PERCENT STRONGLY AGREE OR AGREE WITH COUNTY PERFORMANCE OUTCOMES  
ADULT & OLDER ADULT**

Outcome Measure		Adult			Older Adult		
		May (N =6,327 )	Nov (N =6,644 )	Average <sup>1</sup>	May (N = 363 )	Nov (N = 593 )	Average <sup>1</sup>
1.	The location of services was convenient (Parking, Public Transportation, Distance, etc.)	82.8%	83.9%	83.4%	87.1%	88.1%	87.6%
2.	Staff were willing to see me as often as I felt was necessary.	87.5%	87.0%	87.3%	91.2%	89.1%	90.2%
3.	Services were available at times that were good for me.	89.3%	87.9%	<b>88.6%</b>	90.9%	92.7%	<b>91.8%</b>
4.	Staff were sensitive to my cultural background (race, religion, language, etc).	84.9%	85.5%	85.2%	90.1%	90.9%	90.5%
5.	I deal more effectively with daily problems.	77.0%	77.9%	77.5%	84.3%	83.3%	83.8%
6.	I do better in school and/or work.	62.3%	61.3%	<b>61.8%</b>	67.8%	68.6%	<b>68.2%</b>
7.	My symptoms are not bothering me as much.	64.8%	63.6%	64.2%	73.1%	74.9%	74.0%

<sup>1</sup>Highest and lowest averages are in bold.

Table 2.3 shows the percent of Adults and Older Adults that “Strongly Agree” or “Agree” with the seven (7) County Performance Outcome Measures in both Survey Periods. In order to establish a CY 2008 baseline benchmark for the County Performance Outcomes, an average percentage was computed for both Survey Periods for each Outcome Measure. The average percentages were computed after no statistically significant differences were found between the May and November Survey Periods.

The Adult average percents in both survey periods for “Strongly Agree” or “Agree” with the County Performance Outcomes were: (3.) “Services were available at times that were good for me” at 88.6%; (2.) “Staff were willing to see me as often as I felt was necessary” at 87.3%; “Staff were sensitive to my cultural background” at 85.1%; (1.) “The location of services was convenient” at 83.4%; (5.) “I deal more effectively with daily problems” at 77.5%; (7.) “My symptoms are not bothering me as much” at 64.2%; and (6,) “I do better in school and/or work” at 61.8%.

The Older Adult average percent in both survey periods for “Strongly Agree” or “Agree” with: (3,) “Services were available at times that were good for me” at 91.8%; (2.) “Staff were willing to see me as often as I felt was necessary” at 90.2%; (4.) “Staff were sensitive to my cultural background” at 90.5%; (1.) “The location of services was convenient” at 87.6%; (5.) “I deal more effectively with daily problems” at 83.8%; (7.) “My symptoms are not bothering me as much” at 74.0%; (6) and “I do better in school and/or work” at 68.2%.

**TABLE 2.4: COMPARISON OF UNIFORM COUNTY PERFORMANCE OUTCOME MEASURES IN THE YSS-F, YSS, ADULT & OLDER ADULT**

**May 2008**

<b>Outcome Measure</b>	<b>YSS-F (N = 7,648)</b>	<b>YSS (N=5,282)</b>	<b>Adult (N=6,327)</b>	<b>Older Adult (N = 363)</b>	<b>Average for All Age Groups</b>
1. Location of services was convenient	91.8%	80.6%	82.8%	87.1%	85.2%
2. Services were available at times that were convenient	93.0%	79.6%	89.3%	90.9%	88.2%
3. Staff were sensitive to cultural/ethnic background	95.2%	82.6%	84.9%	90.1%	88.2%
4. Doing better in school and/or work	73.6%	72.3%	62.3%	67.8%	70.0%

**November 2008**

<b>Outcome Measure</b>	<b>YSS-F (N = 8,463)</b>	<b>YSS (N=5,684)</b>	<b>Adult (N=6,644)</b>	<b>Older Adult (N = 593)</b>	<b>Average for All Age Group</b>
1. Location of services was convenient	92.3%	81.3%	83.9%	88.1%	86.4%
2. Services were available at times that were convenient	93.7%	80.0%	87.9%	92.7%	88.6%
3. Staff was sensitive to cultural/ethnic background	94.9%	83.2%	85.5%	90.9%	88.6%
4. Doing better in school and /or work	73.7%	73.0%	61.3%	68.6%	69.1%

Table 2.4 shows the four (4) County Performance Outcome Measures that were common in all of the YSS-F, YSS, Adults and Older Adults. The four measures were asked on a 5-point Likert scale: 1 = Strongly Disagree, 2 = Disagree, 3 = Neutral/Undecided, 4 = Agree and 5 = Strongly Agree. The measures across each age group were compared and a combined Average for All Age Groups was computed.

Table 2.4 shows that in the May and November survey periods, the highest average percent for All Age Groups were (2.) "Services were available at times that were convenient" and (3.) "Staff were sensitive to cultural/ethnic background" at 88%; (1.) "Location of services was convenient" was second highest at 85% in May and 87% in November. The lowest average percent for all age groups was (4.) "Doing better in school and/or work" at 70% in May and 68.5% in November.

**TABLE 2.5: COMPARISON OF UNIFORM COUNTY PERFORMANCE OUTCOME MEASURES IN THE YSS-F & YSS**

<b>Outcome Measure</b>	<b>May YSS-F (N = 7,648)</b>	<b>May YSS (N=5,282)</b>	<b>Nov. YSS-F (N = 8,463)</b>	<b>Nov. YSS (N=5,684)</b>	<b>Average for All Age Groups</b>
1. I Felt My child/I had someone to talk when He/She/I was troubled.	91.9%	80.3%	91.7%	80.6%	86.1%
2. My child/I gets along better with family members.	75.2%	69.0%	75.2%	69.4%	72.2%
3. In a crisis, I would have the support I need from family or friends.	86.6%	80.6%	86.5%	81.0%	83.7%

Table 2.5 shows the average percents for May and November were (1.) "I Felt My child/I had someone to talk when He/She/I was troubled" at 86.1%; (3.) "In a crisis, I would have the support I need from family or friends" at 83.7%, and (2.) "My child/I gets along better with family members" at 72.2%.

**TABLE 2.6: COMPARISON OF UNIFORM COUNTY PERFORMANCE OUTCOME MEASURES IN THE ADULT & OLDER ADULT**

Outcome Measure	May Adult (N=6,327)	May Older Adult (N = 363)	Nov. Adult (N=6,644)	Nov. Older Adult (N = 593)	Average for All Age Groups
1. Staff were willing to see me as often as I felt was necessary.	87.5%	91.2%	87.0%	89.1%	88.7%
2. I deal more effectively with daily problems.	77.0%	84.3%	77.9%	83.3%	80.6%
3. My symptoms are not bothering me as much.	64.8%	73.1%	63.6%	74.9%	69.1%

Table 2.6 shows the average percents for May and November were (1.) “Staff were willing to see me as often as I felt was necessary” at 88.7%; (2.) “I deal more effectively with daily problems” at 80.6%, and (3.) “My symptoms are not bothering me as much” at 69.1%.

**TABLE 2.7: BASELINE COUNTY PERFORMANCE OUTCOMES<sup>1</sup> - CALENDAR YEAR 2008**

Outcome Measure	Average Percent <sup>2</sup>	Rank Order
Staff were willing to see me as often as I felt necessary <sup>3</sup>	88.7%	<b>1.</b>
Services were available at times that were convenient <sup>4</sup>	88.4%	<b>2.</b>
Staff were sensitive to cultural/ ethnic background <sup>4</sup>	88.4%	<b>2.</b>
I felt my child/ I had someone to talk to when he/she/I was troubled <sup>5</sup>	86.1%	<b>4.</b>
Location of services was convenient <sup>4</sup>	85.8%	<b>5.</b>
In a crisis I would have the support I need from family and friends <sup>5</sup>	83.7%	<b>6.</b>
I deal more effectively with daily problems <sup>3</sup>	80.6%	<b>7.</b>
My child/I get along better with family members <sup>5</sup>	72.2%	<b>8.</b>
Doing better in school and / or work <sup>4</sup>	69.5%	<b>9.</b>
Symptoms are not bothering me as much <sup>3</sup>	69.1%	<b>10.</b>

<sup>1</sup> Computed average percent for May and November

<sup>2</sup> Percent “Strongly Agree” or “Agree”

<sup>3</sup> Outcomes for Adults & Older Adults

<sup>4</sup> Outcomes for YSS-F, YSS, Adult & Older Adult

<sup>5</sup> Outcomes for YSS-F & YSS

Table 2.7 shows the average percent that “Strongly Agree” or “Agree” with the Calendar Year 2008 County Performance Outcomes. The average percent was computed by combining the results for the May 2008 and November 2008 survey periods. The highest average percent for “Strongly Agree” or “Agree” with the County for Outcomes was (1.) “Staff were willing to see me as often as I felt was necessary” at 88.7%. The lowest average percent was (10.) “My symptoms are not bothering me as much” at 69.1%.

## YSS-F COUNTY PERFORMANCE OUTCOME BY SERVICE AREA

### YSS-F OUTCOME MEASURE 1:

TABLE 2.8: "I FELT MY CHILD HAD SOMEONE TO TALK TO WHEN HE/ SHE WAS TROUBLED"

\* Statistically significant at  $p \leq 0.05$

Table 2.28 shows that in May 66% and in November 69% of the Older Adults "Strongly Agreed/ Agreed" that "I do better in school and/ or work", 9% "Strongly Disagreed/ Disagreed" and 25% in May and 23% in November were "Neutral." These differences varied significantly by Service Area in May and November.

### **PART III**

#### **PERFORMANCE OUTCOMES FOR TIMELY ACCESS TO POST-DISCHARGE CARE**

##### **ACUTE PSYCHIATRIC HOSPITALIZATION POST DISCHARGE CARE**

The Department has identified two operational measures for timely access to post-discharge care. The first measure is timely access to acute psychiatric hospitalization post-discharge mental health care services. This operational measure is defined as: "Client received continuity of care by being seen within seven (7) calendar days of discharge from an acute psychiatric hospital."

This criterion was selected consistent with the national Substance Abuse and Mental Health Services Administration (SAMHSA) Sixteen State Indicators. It is also one of the indicators reported by all states to the National Association of State Mental Health Directors (NASMHD) for hospital readmission rates outcome data reporting. Research indicates that the identification of high risk groups and high risk factors contributing to high rates of acute psychiatric hospitalization and re-hospitalizations are important to preventing and managing potentially unnecessary hospitalizations. Additionally, acute psychiatric hospitalizations and re-hospitalization episodes are correlated with quality of life indicators for consumers and their ability to enjoy productive lives in the community, in the least restrictive manner and settings possible. Likewise, the provision of timely access to coordinated acute psychiatric hospitalization discharge planning and timely access to follow-up mental health services in community based settings, including medication management best practices, are likely to result in increased tenure in the community and reduced rates of acute psychiatric re-hospitalization.

The systems' capacity to capture relevant data for acute psychiatric hospitalizations exists in the IS Data System for: Date of Admission and Date of Discharge; rates of Re-Admission over time; and, Length of Stay (LOS) during hospitalization. In addition, the system is able to capture Service Delivery/Service Utilization patterns in relationship to acute psychiatric hospitalizations such as identification for the first date of service activity billed through the IS Claims Data for a consumer as compared with the IS data for Date of Discharge from acute psychiatric hospitalization. Similarly, this IS data is used to determine access performance for the seen within seven (7) calendar days target, for post-discharge from acute psychiatric hospitalization. IS Claims data for the last quarter of Calendar Year (CY) 2008 is currently being finalized and the cumulative annual data will then be available for analysis in July 2009.

In conjunction with the selection of this operational measure, a Performance Improvement Project (PIP) Multifunctional Team was assembled, including consumer and stakeholder representation, to specifically address high utilization patterns, service delivery patterns, high risk populations, coordination of care issues and other barriers to timely access to community-based mental health care services after discharge, as identifiable in the data reviewed for the identified study group. This effort was subsequently merged with the statewide Re-Hospitalization Cohort 2 (RC2) PIP to identify and initiate appropriate quality improvement interventions directed at specific

factors contributing to the stated problem. This also includes participation in statewide PIP teleconferences, technical assistance, and consultation available through the External Quality Review Organization (EQRO) and the CDMH as needed and/or requested.

The statewide RC2 PIP is a multi-year project. The identified seven (7) calendar day target goal for access to services post-discharge from acute psychiatric hospitalization is also carefully monitored for performance through the Department's STATS process. Through the STATS process, LAC-DMH Quarterly Access data is tracked for: Total Psychiatric Hospitalizations, Total Seen Within 7 Calendar Days, Percent Seen within 7 Calendar Days, County Percent Seen Under 18, and County Percent Seen 18 and Over. The Department's STATS process ensures that mechanisms are in place for timely access to service provision and that identified barriers to access are effectively addressed. Simple and clear interventions are utilized as appropriate to specific Service Areas and their needs. Appropriate interventions may include: regular tracking of IS 410 Reports for patient admissions, Navigator Teams, Impact Teams, Hospital Liaisons, and clear policies and procedures, including the delineation of roles and responsibilities.

## **RESIDENTIAL TREATMENT PROGRAM/INSTITUTIONAL POST DISCHARGE CARE**

The Department's related second measure is timely access for Residential Treatment/Institutional post-discharge care. This operational measure is defined as: "Client was seen and received timely on-going care within 14 calendar days from the time of discharge from mental health residential/institutional setting."

This criterion was selected consistent with the above measure with the overall goals of: improved quality of life, productive tenure in the community in the least restrictive settings possible, and improved service delivery/service provision. Likewise, the systems' capacity to capture relevant data for this measure exists through the IS Claims Data System. The IS Claims Data is used for: Date of first service activity billed to the IS Claims System following the Date of Discharge from 24-Hour Facilities (Excluding acute psychiatric hospitalizations).

The Department has been developing the residential data collection capability and will proceed with analysis once the data is available. Both of the above measures for timely access to services include continuous quality improvement activities and processes.

# TECHNICAL APPENDIX PART I

**TABLE A1.1: SURVEYS RECEIVED AND RESPONSE RATE  
BY AGE GROUP**

May			
Age Group	Consumers Served	Surveys Received	Response Rate*
YSS-F (0-17)	29,546	6,790	23.0%
YSS (13-17)	14,826	4,174	28.2%
Adult (18-59)	26,197	8,669	33.1%
Older Adult (+60)	2,787	772	27.7%
Total	58,530	20,405	34.9%

November			
Age Group	Consumers Served	Surveys Received	Response Rate*
YSS-F (0-17)	31,301	6,805	21.7%
YSS (13-17)	15,293	4,105	26.8%
Adult (18-59)	26,303	8,027	30.5%
Older Adult (+60)	2,880	625	21.7%
Total	60,484	19,562	32.3%

\* Received Response Rate is based on the total surveys received by age group divided by the number of unique consumers/families who received face-to-face service in Outpatient and Day Treatment settings as reported in the IS (Information System)

**FIGURE A1.6: YSS-F - RESPONSE RATE FOR SURVEYS COMPLETED BY SERVICE AREA**

**May & November**

**TABLE A1.9: YSS-F MEAN<sup>1</sup> AND STANDARD DEVIATION FOR OVERALL SATISFACTION AND ALL SUBSCALE DOMAINS BY AGE GROUP**

May	YSS-F		
	Means	SD	Range
Overall Satisfaction	121.3	16.31	29 - 145
General Satisfaction	21.7	3.3	5 - 25
Perception of Access	8.6	1.5	2 - 10
Perception of Quality and Appropriateness (Cultural Sensitivity)	18.0	2.4	4 - 20
Perception of Participation in Treatment Planning	12.8	2.0	3 - 15
Perception of Outcomes	23.1	4.7	6 - 30
Perception of Functioning	19.3	3.9	5 - 25
Perception of Social Connectedness	16.9	2.7	4 - 20

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

#### **INDIVIDUAL ITEM FOR SATISFACTION SUBSCALES - YSS-F**

[For the official 28-item MHSIP survey YSS-F & YSS - calculate scores for the 5 domains as follows:]

#### **Question number in the YSS-F Survey**

##### **General Satisfaction**

1. Overall, I am satisfied with the services my child received (Q #1).
2. The people helping my child stuck with us no matter what (Q #4).
3. I felt my child had someone to talk to when he/she was troubled (Q #5).
4. The services my child and/or family received were right for us (Q #7).
5. My family got the help we wanted for my child (Q #10).
6. My family got as much help as we needed for my child (Q #11).

##### **Perception of Access**

1. The location of services was convenient for us (Q #8).
2. Services were available at times that were convenient for us (Q #9).

##### **Perception of Cultural Sensitivity**

1. Staff treated me with respect (Q #12).
2. Staff respected my family's religious/spiritual beliefs (Q #13).
3. Staff spoke with me in a way that I understood (Q #14).
4. Staff was sensitive to my cultural/ethnic background (Q #15).

##### **Perception of participation in treatment and planning**

1. I helped to choose my child's services (Q #2).
2. I helped to choose my child's treatment goals (Q #3).
3. I participated in my child's treatment (Q #6).

##### **Perception of Outcomes**

1. My child is better at handling daily life (Q #16).
2. My child gets along better with family members (Q #17).
3. My child gets better with friends and other people (Q #18).
4. My child is doing better in school and/ or work (Q #19).
5. My child is better able to cope when things go wrong (Q #20).
6. I am satisfied with our family life right now (Q # 21)

**Perception of Functioning**

1. My child is better able to do things he or she wants to do(Q #22).
2. My child is better at handling daily life (existing YSS-F Survey item -Q #16).
3. My child gets along better with family members (existing YSS-F Survey item -Q #17).
4. My child gets along better with friends and other people (existing YSS-F Survey item -Q #18).
5. My child is better able to cope when things go wrong (existing YSS-F Survey item -Q #20).

**Perception of Social Connectedness**

1. I know people who will listen and understand me when I need to talk (Q #23).
2. I have people that I am comfortable talking with about my child's problems (Q #24).
3. In a crisis, I would have the support I need from family or friends (Q #25).
4. I have people with whom I can do enjoyable things (Q #26).

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

#### **INDIVIDUAL ITEM FOR SATISFACTION SUBSCALES - YSS**

[For the official 28-item MHSIP survey YSS-F & YSS - calculate scores for the 5 domains as follows:]

#### **Question number in the YSS-F Survey**

##### **General Satisfaction**

1. Overall, I am satisfied with the services I received (Q #1).
2. The people helping me stuck with me no matter what (Q #4).
3. I felt I had someone to talk to when I was troubled (Q #5).
4. I received the services that were right for us (Q #7).
5. I got the help I wanted for my child (Q #10).
6. I got as much help as I needed (Q #11).

##### **Perception of Access**

1. The location of services was convenient for me (Q #8).
2. Services were available at times that were convenient for me (Q #9).

##### **Perception of Cultural Sensitivity**

1. Staff treated me with respect (Q #12).
2. Staff respected my religious/spiritual beliefs (Q #13).
3. Staff spoke with me in a way that I understood (Q #14).
4. Staff was sensitive to my cultural/ethnic background (Q #15).

##### **Perception of participation in treatment and planning**

1. I helped to choose my services (Q #2).
2. I helped to choose my treatment goals (Q # 3).
3. I participated in my own treatment (Q #6).

##### **Perception of Outcomes**

1. I am better at handling daily life (Q #16).
2. I get along better with family members (Q #17).
3. I get along better with friends and other people (Q #18).
4. I am doing better in school and/ or work (Q #19).
5. I am better able to cope when things go wrong (Q #20).
6. I am satisfied with my family life right now (Q #21).
7. I am better able to do things I want to do (Q #22).
8. I have people with whom I can do enjoyable things (Q #26).

**Perception of Functioning**

1. I am better at handling daily life (Q #16).
2. I get along better with family members (Q #17).
3. I get along better with friends and other people (Q #18).
4. I am better able to cope when things go wrong (Q #20).
5. I am better able to do things I want to do (Q #22).

**Perception of Social Connectedness**

1. I know people who will listen and understand me when I need to talk (Q #23).
2. I have people that I am comfortable talking with about my problems (Q #24).
3. In a crisis, I would have the support I need from family or friends (Q #25).
4. I have people with whom I can do enjoyable things (Q #26).

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

#### **INDIVIDUAL ITEM FOR SATISFACTION SUBSCALES - ADULT**

[For the official 28-item MHSIP survey Adult & Older Adult - calculate scores for the 5 domains as follows:]

#### **Question number in the Adult Survey**

##### **General Satisfaction**

1. I liked the services that I received here (Q #1).
2. If I had other choices, I would still get services at this agency (Q #2).
3. I would recommend this agency to a friend or family member (Q #3).

##### **Perception of Access**

1. The location of services was convenient (Q #4).
2. Staff were willing to see me as often as I felt it was necessary (Q #5).
3. Staff returned my calls within 24 hours (Q #6).
4. Services were available at times that were good for me (Q #7).
5. I was able to get all the services I thought I needed (Q #8).
6. I was able to see a psychiatrist when I wanted to (Q #9).

##### **Perception of Quality and Appropriateness**

1. Staff believed that I could grow, change and recover (Q #10).
2. I felt free to complain (Q #12).
3. I was give information about my rights (Q #13).
4. Staff encouraged me to take responsibility for how I live my life (Q #14).
5. Staff told what side effects to watch for (Q #15).
6. Staff respected my wishes about who is and is not to be given information about my treatment (Q #16).
7. Staff were sensitive to my cultural/ethnic background (Q #18).
8. Staff helped me obtain the information needed so I could take charge of managing my illness (Q #19).
9. I was encouraged to use consumer-run programs (Q #20).

**Perception of Participation in Treatment Planning**

1. I felt comfortable asking questions about my treatment and medications (Q #11).
2. I, not staff, decided my treatment goals (Q #17).

**Perceptions of Outcomes**

1. I deal more effectively with daily problems ( Q #21).
2. I am better able to control my life (Q #22).
3. I am better able to deal with crisis (Q #23).
4. I am getting along better with my family (Q#24).
5. I do better in social situations (Q #25).
6. I do better in school and/or work (Q #26).
7. My housing situation has improved (Q #27).
8. My symptoms are not bothering me as much (Q #28).

**Perception of Functioning**

1. My symptoms are not bothering me as much (Q #28).
2. I do things that are more meaningful to me (Q #29).
3. I am better able to take care of my needs (Q #30).
4. I am better able to handle things when they go wrong (Q #31).
5. I am better able to do things that I want to do (Q #32).

**Perception of Social Connectedness**

1. I am happy with the friendships I have (Q #33).
2. I have people with whom I can do enjoyable things (Q #34).
3. I feel I belong in my community (Q #35).
4. In a crisis, I would have the support I need from family or friends (Q #36)

**FIGURE A1.12: OLDER ADULT - RESPONSE RATE FOR SURVEYS COMPLETED BY SERVICE AREA**

**TABLE A1.18: OLDER ADULT MEAN<sup>1</sup> AND STANDARD DEVIATION FOR OVERALL SATISFACTION AND ALL SUBSCALE DOMAINS BY AGE GROUP**

May	Older Adult		
	Means	SD	Range
Overall Satisfaction	158.0	20.7	37 - 185
General Satisfaction	13.7	1.9	3 - 15
Perception of Access	26.4	3.9	6 - 30
Perception of Quality and Appropriateness (Cultural Sensitivity)	39.6	5.1	9 - 49
Perception of Participation in Treatment Planning	8.7	1.4	2 - 10
Perception of Outcomes	32.5	6.1	8 - 40
Perception of Functioning	20.1	4.1	5 - 25
Perception of Social Connectedness	16.2	3.1	4 - 20

<sup>1</sup> Higher score indicates greater Overall Satisfaction and positive perception for each subscale

#### **INDIVIDUAL ITEM FOR SATISFACTION SUBSCALES – OLDER ADULT**

*[For the official 28-item MHSIP survey Adult & Older Adult - calculate scores for the 5 domains as follows:]*

#### **Question number in the Older Adult Survey**

##### **General Satisfaction**

1. I liked the services that I received here (Q #1).
2. If I had other choices, I would still get services at this agency (Q #2).
3. I would recommend this agency to a friend or family member (Q #3).

##### **Perception of Access**

1. The location of services was convenient (Q #4).
2. Staff were willing to see me as often as I felt it was necessary (Q #5).
3. Staff returned my calls within 24 hours (Q #6).
4. Services were available at times that were good for me (Q #7).
5. I was able to get all the services I thought I needed (Q #8).
6. I was able to see a psychiatrist when I wanted to (Q #9).

##### **Perception of Quality and Appropriateness**

1. Staff believed that I could grow, change and recover (Q #10).
2. I felt free to complain (Q #12).
3. I was given information about my rights (Q #13).
4. Staff encouraged me to take responsibility for how I live my life (Q #14).
5. Staff told what side effects to watch for (Q #15).
6. Staff respected my wishes about who is and is not to be given information about my treatment (Q #16).
7. Staff were sensitive to my cultural/ethnic background (Q #18).
8. Staff helped me obtain the information needed so I could take charge of managing my illness (Q #19).
9. I was encouraged to use consumer-run programs (Q #20).

**Perception of Participation in Treatment Planning**

1. I felt comfortable asking questions about my treatment and medications (Q #11).
2. I, not staff, decided my treatment goals (Q #17).

**Perceptions of Outcomes**

1. I deal more effectively with daily problems ( Q #21).
2. I am better able to control my life (Q #22).
3. I am better able to deal with crisis (Q #23).
4. I am getting along better with my family (Q#24).
5. I do better in social situations (Q #25).
6. I do better in school and/or work (Q #26).
7. My housing situation has improved (Q #27).
8. My symptoms are not bothering me as much (Q #28).

**Perception of Functioning**

1. My symptoms are not bothering me as much (Q #28).
2. I do things that are more meaningful to me (Q #29).
3. I am better able to take care of my needs (Q #30).
4. I am better able to handle things when they go wrong (Q #31).
5. I am better able to do things that I want to do (Q #32).

**Perception of Social Connectedness**

1. I am happy with the friendships I have (Q #33).
2. I have people with whom I can do enjoyable things (Q #34).
3. I feel I belong in my community (Q #35).
4. In a crisis, I would have the support I need from family or friends (Q #36)

## **DATA ANALYSIS OF QUALITY OF LIFE SUBSCALES**

**TABLE A1.20: ITEMS USED TO MEASURE QUALITY OF LIFE SUBSCALES  
FOR ADULT & OLDER ADULT**

<b>Perception of Living Situation</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the living arrangements where you live?</li> <li>2. How do you feel about the privacy you have there?</li> <li>3. How do you feel about the prospect of staying on where you currently live for a long period of time?</li> </ol>
<b>Perception of Daily Activities &amp; Functioning</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the way you spend your spare time?</li> <li>2. How do you feel about the chance you have to enjoy pleasant or beautiful things?</li> <li>3. How do you feel about the amount of fun you have?</li> <li>4. How do you feel about the amount of relaxation in your life?</li> </ol>
<b>Perception of Family Relationships</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the way you and your family act toward each other?</li> <li>2. How do you feel about the way things are in general between you and your family?</li> </ol>
<b>Time Spent with Family<sup>1</sup></b>	<ol style="list-style-type: none"> <li>1. About how often do you visit with someone who does not live with you?</li> <li>2. About how often do you spend time with someone you consider more than a friend, like a spouse, a boyfriend or a girlfriend?</li> </ol>
<b>Perception of Social Relations</b>	<ol style="list-style-type: none"> <li>1. How do you feel about the things you do with other people?</li> <li>2. How do you feel about the amount of time you spend with other people?</li> <li>3. How do you feel about the people you see socially?</li> <li>4. How do you feel about the amount of friendship in your life?</li> </ol>
<b>Finances<sup>1</sup></b>	<ol style="list-style-type: none"> <li>1. During the past month, did you generally have enough money to cover food?</li> <li>2. During the past month, did you generally have enough money to cover clothing?</li> <li>3. During the past month, did you generally have enough money to cover housing?</li> <li>4. During the past month, did you generally have enough money to cover traveling around for things like shopping, medical appointments, or visiting friends and relatives?</li> <li>5. During the past month, did you generally have enough money for social activities like movies or eating in restaurants?</li> </ol>
<b>Crime Victim on Past Month</b>	<ol style="list-style-type: none"> <li>1. In the past month, were you the victim of any violent crimes such as assault, rape, mugging or robbery?</li> <li>2. In the past month, were you the victim of any non-violent crimes such as burglary, theft of your property or money, or being cheated?</li> </ol>
<b>Perception of Legal Safety</b>	<ol style="list-style-type: none"> <li>1. How do you feel about how safe you are on the streets in your neighborhood?</li> <li>2. How do you feel about how safe you are where you live?</li> <li>3. How do you feel about the protection you have against being robbed or attacked?</li> </ol>
<b>Perception of Health</b>	<ol style="list-style-type: none"> <li>1. How do you feel about your health in general?</li> <li>2. How do you feel about your physical condition?</li> <li>3. How do you feel about your emotional well-being?</li> </ol>

# STATE PERFORMANCE OUTCOMES SURVEY FORMS

## YOUTH SERVICES SURVEY FOR FAMILIES (YSS-F)

Please help our agency make services better by answering some questions. Your answers are confidential and will not influence current or future services you or your child will receive. **For each survey item below, please fill in the circle that corresponds to your choice. Please fill in the circle completely.** EXAMPLE: Correct ☐ Incorrect ☒

Please answer the following questions based on the **last 6 months** OR if services have not been received for 6 months, just give answers based on the services that have been received so far. Indicate if you **Strongly Disagree**, **Disagree**, are **Undecided**, **Agree**, or **Strongly Agree** with each of the statements below. If the question is about something you or your child have not experienced, fill in the circle for **Not Applicable** to indicate that this item does not apply.

	Strongly Disagree	Disagree	Undecided	Agree	Strongly Agree	Not Applicable
1. Overall, I am satisfied with the services my child received.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. I helped to choose my child's services.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I helped to choose my child's treatment goals.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. The people helping my child stuck with us no matter what.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. I felt my child had someone to talk to when he / she was troubled.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. I participated in my child's treatment.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. The services my child and / or family received were right for us.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. The location of services was convenient for us.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Services were available at times that were convenient for us.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. My family got the help we wanted for my child.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. My family got as much help as we needed for my child.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. Staff treated me with respect.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13. Staff respected my family's religious / spiritual beliefs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14. Staff spoke with me in a way that I understood.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15. Staff were sensitive to my cultural / ethnic background.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

### As a result of the services my child and / or family received:

	Strongly Disagree	Disagree	Undecided	Agree	Strongly Agree	Not Applicable
16. My child is better at handling daily life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17. My child gets along better with family members.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. My child gets along better with friends and other people.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19. My child is doing better in school and / or work.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20. My child is better able to cope when things go wrong.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
21. I am satisfied with our family life right now.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
22. My child is better able to do things he or she wants to do.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*\*\*Must be entered on EVERY page\*\*\*

*For Questions #23-26, please answer for relationships with persons other than your mental health provider(s).*

**As a result of the services my child and /  
or family received:**

	Strongly Disagree	Disagree	Undecided	Agree	Strongly Agree	Not Applicable
23. I know people who will listen and understand me when I need to talk.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
24. I have people that I am comfortable talking with about my child's problem(s).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
25. In a crisis, I would have the support I need from family or friends.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
26. I have people with whom I can do enjoyable things.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

27. What has been the most helpful thing about the services you and your child received over the last 6 months?

28. What would improve the services here?

29. Please provide comments here and /or on the back of this form, if needed.  
We are interested in both positive and negative feedback.

**Please answer the following questions to let us know how your child is doing.**

1. Is your child currently living with you? ☐ Yes ☐ No

2. Has your child lived in any of the following places in the last 6 months? (Mark all that apply.)

- |  |  |   |
|--|--|---|
| <input type="radio"/> With one or both parents   | <input type="radio"/> Homeless shelter                 | <input type="radio"/> State correctional facility         |
| <input type="radio"/> With another family member | <input type="radio"/> Group home                       | <input type="radio"/> Runaway / homeless / on the streets |
| <input type="radio"/> Foster home                | <input type="radio"/> Residential treatment center     | <input type="radio"/> Other (describe): _____             |
| <input type="radio"/> Therapeutic foster home    | <input type="radio"/> Hospital                         |   |
| <input type="radio"/> Crisis shelter             | <input type="radio"/> Local jail or detention facility |   |

3. In the last year, did your child see a medical doctor (or nurse) for a health check-up or because he/she was sick?  
(Check one.)

- ☐ Yes, in a clinic or office ☐ Yes, but only in a hospital or emergency room ☐ No ☐ Do not remember

4. Is your child on medication for emotional / behavioral problems? ☐ Yes ☐ No

4a. If yes, did the doctor or nurse tell you and/or your child what side effects to watch for? ☐ Yes ☐ No

5. Approximately, how long has your child received services here?

- |   |  |  |
|---|--|--|
| <input type="radio"/> This is my child's first visit here.  | <input type="radio"/> 1 - 2 Months       | <input type="radio"/> More than 1 year |
| <input type="radio"/> My child has had more than one visit but has received services for less than one month. | <input type="radio"/> 3 - 5 Months       |  |
|   | <input type="radio"/> 6 months to 1 year |  |

Please answer Questions #6 - 11 if your child has been receiving mental health services for ONE YEAR OR LESS.  
If your child has been receiving mental health services for 'MORE THAN ONE YEAR,' skip to question 12 below.

6. Was your child arrested since beginning to receive mental health services? ☐ Yes ☐ No
7. Was your child arrested during the 12 months prior to that? ☐ Yes ☐ No
8. Since your child began to receive mental health services, have their encounters with the police:
- ☐ been reduced (for example, they have not been arrested, hassled by police, taken by police to a shelter or crisis program)
  - ☐ stayed the same
  - ☐ increased
  - ☐ not applicable (they had no police encounters this year or last year)
9. Was your child expelled or suspended since beginning services? ☐ Yes ☐ No
10. Was your child expelled or suspended during the 12 months prior to that? ☐ Yes ☐ No
11. Since starting to receive services, the number of days my child was in school is:
- ☐ greater
  - ☐ about the same
  - ☐ less
  - ☐ does not apply (please select why this does not apply)
    - ☐ child did not have a problem with attendance before starting services
    - ☐ child is too young to be in school
    - ☐ child was expelled from school
    - ☐ child is home schooled
    - ☐ child dropped out of school
    - ☐ other: \_\_\_\_\_

**SKIP to Question #18 on the next page** 

Please answer Questions #12-17 only if your child has been receiving mental health services for 'MORE THAN ONE YEAR.'

12. Was your child arrested during the last 12 months? ☐ Yes ☐ No
13. Was your child arrested during the 12 months prior to that? ☐ Yes ☐ No
14. Over the last year, have your child's encounters with the police:
- ☐ been reduced (for example, they have not been arrested, hassled by police, taken by police to a shelter or crisis program)
  - ☐ stayed the same
  - ☐ increased
  - ☐ not applicable (they had no police encounters this year or last year)
15. Was your child expelled or suspended during the last 12 months? ☐ Yes ☐ No
16. Was your child expelled or suspended during the 12 months prior to that? ☐ Yes ☐ No
17. Over the last year, the number of days my child was in school is:
- ☐ greater
  - ☐ about the same
  - ☐ less
  - ☐ does not apply (please select why this does not apply)
    - ☐ child did not have a problem with attendance before starting services
    - ☐ child is too young to be in school
    - ☐ child was expelled from school
    - ☐ child is home schooled
    - ☐ child dropped out of school

CSI County Client Number

\*\*\*Must be entered on EVERY page\*\*\*

**Please answer the following questions to let us know a little about your child.**

18. What is your child's gender? ☐ Female ☐ Male ☐ Other

19. Are either of the child's parents of Mexican / Hispanic / Latino origin? ☐ Yes ☐ No ☐ Unknown

20. What is your child's race? (Mark all that apply.)

- ☐ American Indian / Alaskan Native ☐ Native Hawaiian / Other Pacific Islander ☐ Unknown  
☐ Asian ☐ White / Caucasian  
☐ Black / African American ☐ Other

21. What is your child's date of birth? (Write it in the boxes AND fill in the circles that correspond. See Example.)

Date of Birth (mm-dd-yyyy)

		-					
0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9

EXAMPLE: Date of birth on April 30, 1990:

1. Write in your child's date of birth → 04 - 30 - 1990

2. Fill in the corresponding circles

		-					
0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9

22. Does your child have Medi-Cal (Medicaid) insurance? ☐ Yes ☐ No

23. Were the services your child received provided in the language he / she preferred? ☐ Yes ☐ No

24. Was written information (e.g., brochures describing available services, your rights as a consumer, and mental health education materials) available to you in the language you prefer? ☐ Yes ☐ No

25. Please identify who helped you complete any part of this survey (Mark all that apply):

- ☐ I did not need any help. ☐ A professional interviewer helped me.  
☐ A mental health advocate / volunteer helped me. ☐ My child's clinician / case manager helped me.  
☐ Another mental health consumer helped me. ☐ A staff member other than my child's clinician or case manager helped me.  
☐ A member of my family helped me. ☐ Someone else helped me. Who?: \_\_\_\_\_

# YOUTH SERVICES SURVEY FOR YOUTH (YSS)

Please help our agency make services better by answering some questions. Your answers are confidential and will not influence current or future services you will receive. **For each survey item below, please fill in the circle that corresponds to your choice.** Please fill in the circle completely. **EXAMPLE:** Correct ☐ Incorrect ☒

Please answer the following questions based on the **last 6 months** OR if services have not been received for 6 months, just give answers based on the services that have been received so far. Indicate if you **Strongly Disagree**, **Disagree**, are **Undecided**, **Agree**, or **Strongly Agree** with each of the statements below. If the question is about something you have not experienced, fill in the circle for **Not Applicable** to indicate that this item does not apply.

	Strongly Disagree	Disagree	Undecided	Agree	Strongly Agree	Not Applicable
1. Overall, I am satisfied with the services I received.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. I helped to choose my services.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I helped to choose my treatment goals.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. The people helping me stuck with me no matter what.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. I felt I had someone to talk to when I was troubled.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. I participated in my own treatment.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. I received services that were right for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. The location of services was convenient for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Services were available at times that were convenient for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. I got the help I wanted.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. I got as much help as I needed.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. Staff treated me with respect.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13. Staff respected my religious / spiritual beliefs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14. Staff spoke with me in a way that I understood.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15. Staff were sensitive to my cultural / ethnic background.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

## As a result of the services I received:

	Strongly Disagree	Disagree	Undecided	Agree	Strongly Agree	Not Applicable
16. I am better at handling daily life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17. I get along better with family members.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. I get along better with friends and other people.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19. I am doing better in school and / or work.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20. I am better able to cope when things go wrong.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
21. I am satisfied with my family life right now.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
22. I am better able to do things I want to do.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

CSI County Client Number

\*\*\*Must be entered on EVERY page\*\*\*

**Please answer the following questions to let us know a little about you.**

17. What is your gender? ☐ Female ☐ Male ☐ Other

18. Are you of Mexican / Hispanic / Latino origin? ☐ Yes ☐ No ☐ Unknown

19. What is your race? (Mark all that apply.)

- ☐ American Indian / Alaskan Native ☐ Native Hawaiian / Other Pacific Islander ☐ Unknown  
☐ Asian ☐ White / Caucasian  
☐ Black / African American ☐ Other

20. What is your date of birth? (Write it in the boxes AND fill in the circles that correspond. See Example.)

Date of Birth (mm-dd-yyyy)

		-					
0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9

EXAMPLE: Date of birth on April 30, 1990:

1. Write in your child's date of birth → 04 - 30 - 1990

2. Fill in the corresponding circles

0	0	0	0	0	0	0	0
1	0	0	0	0	0	0	0
2	0	0	0	0	0	0	0
3	0	0	0	0	0	0	0
4	0	0	0	0	0	0	0
5	0	0	0	0	0	0	0
6	0	0	0	0	0	0	0
7	0	0	0	0	0	0	0
8	0	0	0	0	0	0	0
9	0	0	0	0	0	0	0

21. Do you have Medi-Cal (Medicaid) insurance? ☐ Yes ☐ No

22. Were the services you received provided in the language you prefer? ☐ Yes ☐ No

23. Was written information (e.g., brochures describing available services, your rights as a consumer, and mental health education materials) available to you in the language you prefer? ☐ Yes ☐ No

24. Please identify who helped you complete any part of this survey (Mark all that apply):

- ☐ I did not need any help. ☐ A professional interviewer helped me.  
☐ A mental health advocate / volunteer helped me. ☐ My clinician / case manager helped me.  
☐ Another mental health consumer helped me. ☐ A staff member other than my clinician or case manager helped me.  
☐ A member of my family helped me. ☐ Someone else helped me. Who?: \_\_\_\_\_

CALIFORNIA DEPARTMENT OF  
**Mental Health**  
**ADULT SURVEY**

**ENGLISH**  
**Adult Survey**

Please help our agency make services better by answering some questions. Your answers are confidential and will not influence current or future services you receive. **For each survey item below, please fill in the circle that corresponds to your choice. Please fill in the circle completely.** EXAMPLE: Correct ☐ Incorrect ☒

**MHSIP Consumer Survey\*:**

Please answer the following questions based on the **LAST 6 MONTHS** OR if you have not received services for 6 months, just give answers based on the services you have received so far. Indicate if you **Strongly Agree**, **Agree**, are **Neutral**, **Disagree**, or **Strongly Disagree** with each of the statements below. If the question is about something you have not experienced, fill in the circle for **Not Applicable** to indicate that this item does not apply to you.

	Strongly Agree	Agree	I am Neutral	Disagree	Strongly Disagree	Not Applicable
1. I like the services that I received here.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. If I had other choices, I would still get services from this agency.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I would recommend this agency to a friend or family member.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. The location of services was convenient (parking, public transportation, distance, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. Staff were willing to see me as often as I felt it was necessary.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Staff returned my calls within 24 hours.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. Services were available at times that were good for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. I was able to get all the services I thought I needed.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. I was able to see a psychiatrist when I wanted to.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. Staff here believe that I can grow, change and recover.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. I felt comfortable asking questions about my treatment and medication.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. I felt free to complain.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13. I was given information about my rights.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14. Staff encouraged me to take responsibility for how I live my life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15. Staff told me what side effects to watch out for.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
16. Staff respected my wishes about who is, and who is not to be given information about my treatment.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17. I, not staff, decided my treatment goals.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. Staff were sensitive to my cultural background (race, religion, language, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19. Staff helped me obtain the information I needed so that I could take charge of managing my illness.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20. I was encouraged to use consumer-run programs (support groups, drop-in centers, crisis phone line, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>As a direct result of the services I received:</b>	Strongly Agree	Agree	I am Neutral	Disagree	Strongly Disagree	Not Applicable
21. I deal more effectively with daily problems.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
22. I am better able to control my life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*The MHSIP Consumer Survey was developed through a collaborative effort of consumers, the Mental Health Statistics Improvement Program (MHSIP) community, and the Center for Mental Health Services.

**Health**

12. How do you feel about:

	Terrible	Unhappy	Mostly Dissatisfied	Mixed	Mostly Satisfied	Pleased	Delighted
A. Your health in general?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
B. Your physical condition?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
C. Your emotional well-being?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Please answer the following questions to let us know how you are doing.**

1. Approximately, how long have you received services here?

- ☐ This is my first visit here.      ☐ 1 - 2 Months      ☐ More than 1 year  
☐ I have had more than one visit but I have received services for less than one month.      ☐ 3 - 5 Months      ☐ 6 months to 1 year

Please answer Questions #2 - 4, below, if you have been receiving services for **ONE YEAR OR LESS**. If you have been receiving services for "MORE THAN ONE YEAR," please SKIP to Questions #5.

2. Were you arrested since you began to receive mental health services?    ☐ Yes    ☐ No
3. Were you arrested during the 12 months prior to that?    ☐ Yes    ☐ No
4. Since you began to receive mental health services, have your encounters with the police . . .
- ☐ been reduced (for example, I have not been arrested, hassled by police, taken by police to a shelter or crisis program)  
☐ stayed the same  
☐ increased  
☐ not applicable (I had no police encounters this year or last year)

**SKIP to Question #8, below** ↓

Please answer Questions #5 - 7 only if you have been receiving mental health services for "**MORE THAN ONE YEAR**."

5. Were you arrested during the last 12 months?    ☐ Yes    ☐ No
6. Were you arrested during the 12 months prior to that?    ☐ Yes    ☐ No
7. Over the last year, have your encounters with the police . . .
- ☐ been reduced (for example, I have not been arrested, hassled by police, taken by police to a shelter or crisis program)  
☐ stayed the same  
☐ increased  
☐ not applicable (I had no police encounters this year or last year)

**Please answer the following questions to let us know a little about you.**

8. What is your gender?    ☐ Female    ☐ Male    ☐ Other
9. Are you of Mexican / Hispanic / Latino origin?    ☐ Yes    ☐ No    ☐ Unknown
10. What is your race? (Please mark all that apply.)
- ☐ American Indian / Alaskan Native    ☐ Native Hawaiian / Other Pacific Islander    ☐ Unknown  
☐ Asian    ☐ White / Caucasian  
☐ Black / African American    ☐ Other

**OLDER ADULT SURVEY**

Please help our agency make services better by answering some questions. Your answers are confidential and will not influence current or future services you receive. **For each survey item below, please fill in the circle that corresponds to your choice. Please fill in the circle completely.**

**EXAMPLE:** Correct ● Incorrect ✗ ✓

**MHSIP Consumer Survey\*:**

Please answer the following questions based on the **LAST 6 MONTHS** OR if you have not received services for 6 months, just give answers based on the services you have received so far. Indicate if you **Strongly Agree, Agree, are Neutral, Disagree, or Strongly Disagree** with each of the statements below. If the question is about something you have not experienced, fill in the circle for **Not Applicable** to indicate that this item does not apply to you.

	Strongly Agree	Agree	I am Neutral	Disagree	Strongly Disagree	Not Applicable
1. I like the services that I received here.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. If I had other choices, I would still get services from this agency.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I would recommend this agency to a friend or family member.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. The location of services was convenient (parking, public transportation, distance, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. Staff were willing to see me as often as I felt it was necessary.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Staff returned my calls within 24 hours.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. Services were available at times that were good for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. I was able to get all the services I thought I needed.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. I was able to see a psychiatrist when I wanted to.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. Staff here believe that I can grow, change and recover.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. I felt comfortable asking questions about my treatment and medication.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. I felt free to complain.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13. I was given information about my rights.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14. Staff encouraged me to take responsibility for how I live my life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15. Staff told me what side effects to watch out for.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
16. Staff respected my wishes about who is, and who is not to be given information about my treatment.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17. I, not staff, decided my treatment goals.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. Staff were sensitive to my cultural background (race, religion, language, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19. Staff helped me obtain the information I needed so that I could take charge of managing my illness.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

\*This survey was developed through a collaborative effort of consumers, the Mental Health Statistics Improvement Program (MHSIP) community, and the Center for Mental Health Services.

Please answer the following questions to let us know how you are doing.

1. Approximately, how long have you received services here?

- ☐ This is my first visit here. ☐ 1 - 2 Months ☐ More than 1 year  
☐ I have had more than one visit but I have received services for less than one month. ☐ 3 - 5 Months  
☐ 6 months to 1 year

Please answer Questions #2 - 4 if you have been receiving services for **ONE YEAR OR LESS**. If you have been receiving services for **"MORE THAN ONE YEAR,"** please **SKIP** to Questions #5.

2. Were you arrested since you began to receive mental health services? ☐ Yes ☐ No  
 3. Were you arrested during the 12 months prior to that? ☐ Yes ☐ No  
 4. Since you began to receive mental health services, have your encounters with the police . . .  
☐ been reduced (for example, I have not been arrested, hassled by police, taken by police to a shelter or crisis program)  
☐ stayed the same  
☐ increased  
☐ not applicable (I had no police encounters this year or last year)

**SKIP to Question #8, below** ↓

Please answer Questions #5 - 7 only if you have been receiving mental health services for **"MORE THAN ONE YEAR"**.

5. Were you arrested during the last 12 months? ☐ Yes ☐ No  
 6. Were you arrested during the 12 months prior to that? ☐ Yes ☐ No  
 7. Over the last year, have your encounters with the police . . .  
☐ been reduced (for example, I have not been arrested, hassled by police, taken by police to a shelter or crisis program)  
☐ stayed the same  
☐ increased  
☐ not applicable (I had no police encounters this year or last year)

Please answer the following questions to let us know a little about you.

8. What is your gender? ☐ Female ☐ Male ☐ Other  
 9. Are you of Mexican / Hispanic / Latino origin? ☐ Yes ☐ No ☐ Unknown  
 10. What is your race? (Please check all that apply.)  
☐ American Indian / Alaskan Native ☐ Native Hawaiian / Other Pacific Islander ☐ Unknown  
☐ Asian ☐ White / Caucasian  
☐ Black / African American ☐ Other  
 11. What is your date of birth? (Write it in the boxes AND fill in the circles that correspond.)

Date of Birth (mm-dd-yyyy)

		-			-				
0	0	0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9	9	9

EXAMPLE: Date of birth on April 30, 1937:

1. Write in your date of birth → 04 - 30 - 1937

2. Fill in the corresponding circles

0	0	0	0	0	0	0	0	0	0
1	0	0	0	0	0	0	0	0	0
2	0	0	0	0	0	0	0	0	0
3	0	0	0	0	0	0	0	0	0
4	0	0	0	0	0	0	0	0	0
5	0	0	0	0	0	0	0	0	0
6	0	0	0	0	0	0	0	0	0
7	0	0	0	0	0	0	0	0	0
8	0	0	0	0	0	0	0	0	0
9	0	0	0	0	0	0	0	0	0

12. Were the services you received provided in the language you prefer? ☐ Yes ☐ No

13. Was written information (e.g., brochures describing available services, your rights as a consumer, and mental health education materials) available to you in the language you prefer? ☐ Yes ☐ No

14. What was the primary reason you became involved with this program? (Mark one):

- ☐ I decided to come in on my own.  
☐ Someone else recommended that I come in.  
☐ I came in against my will.

15. Please identify who helped you complete any part of this survey (Mark all that apply):

- ☐ I did not need any help. ☐ My clinician / case manager helped me.  
☐ A mental health advocate / volunteer helped me. ☐ A staff member other than my clinician or case manager helped me.  
☐ Another mental health consumer helped me. ☐ Someone else helped me.  
☐ A member of my family helped me. Who?: \_\_\_\_\_  
☐ A professional interviewer helped me.

16. Please provide comments here and /or on the back of this form, if needed. We are interested in both positive and negative feedback. Also, if there are areas which were not covered by this questionnaire which you feel should have been, please write them here. Thank you for your time and cooperation in completing this questionnaire.

*Thank you for taking the time to answer these questions!*

**For FIELD-BASED SERVICES ONLY**  
**Los Angeles County - Department of Mental Health**

**Adult /  
Older Adult  
MHSIP  
Survey**

Please help our agency make services better by answering some questions. Your answers are confidential and will not influence current or future services you receive. For each survey item, please fill in the circle that corresponds to your choice. Please fill in the circle completely.

Example: ● Correct      ⊗ ⊖ ⊙ Incorrect

	Strongly Agree	Agree	I am Neutral	Disagree	Strongly Disagree	Not Applicable
1 The location of services was convenient (parking, public transportation, distance, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2 Staff were willing to see me as often as I felt was necessary.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3 Services were available at times that were good for me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4 Staff were sensitive to my cultural background (race, religion, language, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5 I deal more effectively with daily problems.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6 I do better in school and/or work.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7 My symptoms are not bothering me as much.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Birthdate							
Month		Date		Year			
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	1	9	<input type="text"/>	<input type="text"/>
